**Note:**
1. Late submission will result in 10% per day penalties.
2. Students must attend at least 10 lectures to be allowed to take the final examination.
3. Students must achieve a passing grade or above in the final examination to pass the course.
4. Lecture attendance will be recorded each week and used to moderate students’ final overall scores for this course.
• Presentation (10%)

This assignment is based on individual work. It brings real-life experiences to the learning about creative evaluation of advertisements, aiming to develop students’ critical, analytical and integrative thinking. Students will be randomly assigned to specific themes and present a rigorous and critical analysis of the advertisements that are chosen by students guided by the themes. Students are expected to develop logical and convincing arguments in regards to what are specific qualities that make this advertisement a good/bad one. Relevant theories/concepts in Marketing Communications may be applied as appropriate frameworks and perspectives in the discussion.

The presentation should be max. 5 minutes long, assisted by PowerPoint slides. Given the time limit, 4-5 slides are recommended as manageable for the presentation. A hardcopy of the slides MUST be submitted on the presentation day before the presentation starts. A summary report must be submitted in class on the presentation day, which should be max. 2 pages, using single space, Times New Roman and font size 12. This assignment will be assessed on a combined base of presentation (8%) and summary report (2%).

• Class Test (20%)

This is an in-class mid-session test in Week 4 that covers all the materials in the first three weeks. Students may only sit for this quiz once. Failure to sit for the quiz will result in a zero grade for this assessment. Students who fail this mid-session quiz will be counselled as an early warning that they have to work harder in this course.

• Group Project (30%)

The task in this assignment is to prepare a marketing communications plan in response to a brief. To undertake this task students are required to work in a group consisting of approximately 4 members. Detailed project brief will be provided as a separate document available on iLearn. A peer review will be conducted at the completion of this project, the result of which will help to determine individual scores for the group project. The peer review form is attached in Appendix I.

• Final Examination (40%)

A final examination is included as an assessment task for this unit to provide assurance that:

i) the product belongs to the student and
ii) the student has attained the knowledge and skills tested in the exam.

A 3-hour final examination for this unit will be held during the University Examination period.

The University Examination period in the First Half Year 2012 will commence on the 12th of June.
You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations. 
http://www.timetables.mq.edu.au/exam

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. The University’s policy on special consideration process is available at: http://www.mq.edu.au/policy/docs/special_consideration/policy.html

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. (Individual Faculties may wish to signal when the Faculties’ Supplementary Exams are normally scheduled.)
