

# **ACCG 253 FINANCIAL MANAGEMENT**

## **UNIT OUTLINE 1<sup>st</sup> SEMESTER 2007**

**<http://online.mq.edu.au/public/ACCG253>**

**DEPARTMENT OF ACCOUNTING & FINANCE  
DIVISION OF ECONOMIC & FINANCIAL STUDIES**

## Unit Description

ACCG253 is an introductory subject to the world of Corporate Finance. Corporate Finance is concerned with corporate tasks directed to the financing, investing and dividend distribution of the resources of a corporation in ways consistent with the objective of the corporation. ACCG253 deals with these tasks in the context of the Australian corporate environment and provides students with an understanding of the key concepts in the study of finance.

## Learning Outcomes

By the end of ACCG 253, students should understand the following financial management issues:

- Principles and methods of project evaluation
- Portfolio theory and asset pricing.
- Capital market efficiency.
- Cost of capital and taxation.
- Sources of short-term and long-term finance
- Dividends and share repurchases as strategic decisions.
- Capital structure within a dynamic framework.
- Futures, options and contingent claims.
- Management of short-term assets.

Further, the course should help students develop the following generic skills:

- Familiarity with the language of finance.
- Ability to think at the abstract level required in finance.
- Capacity to comment on events reported in the financial press.

## Pre-requisite

The pre-requisites for this unit are: (ACCG100 or ACCG105) and (ECON111 or BBA103) and (STAT170 or STAT171) and ACST101 and (27cp or GPA of 2.00)

## Faculty

Dr. Mehdi Sadeghi	[MS]	Lecturer-in-charge	Ph: 9850 8527
Dr. Ryle Perera	[RP]	Lecturer	Ph: 9850 8578
Professor John Okunev	[JO]	Lecturer	Ph: 9850 9282
Mr. Toomas Truuvert	[TT]	Lecturer	Ph: 9850 8524
Mr. Alex Proimos	[AP]	Unit-administrator	Ph: 9850 9179

Consultation times will be posted on WebCT. Consultation is only available for clarification of material covered in lectures and tutorials, and where the student has attended the relevant session.

## Prescribed text

Peirson, Brown, Easton, Howard, and Pinder (2005) Business Finance. (9th ed) McGraw Hill Australia.

All other readings will be available in PDF form through WebCT.

## Unit WebCT site

All course materials and announcements will be available through the unit's WebCT site at <http://online.mq.edu.au/public/ACCG253>. General announcements and information will be posted under an Announcements icon on the homepage. Therefore, it is essential students access the unit site regularly. Students with login difficulties should contact the IT support staff on Level 1 of the library. Lecture notes and solutions to tutorial exercises will be available through a staged release.

## Lectures

Lectures are conducted in three strands:

<input type="checkbox"/> Day	Thursday	13:00 – 15.00	E7B MASON
<input type="checkbox"/> Evening	Thursday	18:00 - 20:00	W5B MACTH
<input type="checkbox"/> Day	Friday	11:00 - 13:00	W5B MACTH

Students must attend the lecture in which they have enrolled.

## Policy on Cheating and Plagiarism

The University policy on cheating and plagiarism applies in this unit. The policy can be accessed through the University's home page. Students are advised to read the policy, which can be located at:

<http://www.student.mq.edu.au/plagiarism/>

## Assessment

Tutorial attendance and participation	10%
Mid-semester test	30%
End-of-semester (final) examination	60%

To achieve a minimum of a pass grade in the unit, students need to successfully:

- attend and participate in weekly tutorials
- attempt the during-semester tests
- attempt the end-of-semester (final) examination and achieve a minimum of a pass grade.

## Attendance and Participation

Five marks are allocated for attendance. Students will lose 1 mark for each tutorial missed (excluding public holidays, illness supported by a medical certificate, or tutor absence). A student who misses five or more tutorials will have failed the course.

Five marks will be allocated for completing tutorial works and class participation. During the semester, three lots of tutorial work will be collected in randomly selected weeks. The best two marks will be used in forming your final tutorial mark.

## Mid-Semester Test

Mid-semester test will be held in week 6 on Saturday 28<sup>th</sup> of April at 10:00 am. This test will cover the topics of week 1-6 inclusive and last 90 minutes. The format of the test is

short answers, extended responses, and/or some calculations. The tests will be returned to students after they are marked by tutors. Any disputes that may arise with regard to marking of papers must be resolved with tutors within two weeks after the date that papers are returned to students. Request for revision or remarking of papers is not accepted after this period.

You must attend the test, unless clearly prevented from doing so by illness, misadventure, or unavoidable disruption. In that case, the weight of the test will be added to the weight of the final exam upon subject to receiving request from students (there will be no supplementary test). Students must submit their written request in ERIC. The deadline for submission is Friday 11<sup>th</sup> of May. No request will be accepted after this date.

## **Announcement of Continuous Assessment**

Marks for the components of continuous assessment (tutorials and mid-term test) will be posted on ACCG253 WebCT before final exam starts. It is student obligation to check their marks and report errors to the LIC by e-mail before the final exam.

## **Final Examination**

The end-of-semester (final) examination is of three-hour duration. Details will be posted on the unit's WebCT site notice board by the 11<sup>th</sup> week of the semester. All lecture topics and tutorial exercises are examinable.

Unless prevented by illness, misadventure or unavoidable disruption students must attempt the end-of-semester exam at the time scheduled by the University. Special consideration will be given only to students who throughout the semester have achieved a satisfactory progress in all other assessment components.

Special consideration requests will only be considered if the student has correctly followed the prescribed application process.

## **Grades**

Under the current grading system, a standardised numerical grade (SNG) will be awarded together with a band grade HD, D, Cr, P, PC, or F.

The SNG is purely a rank, and is NOT the weighted aggregate of the raw marks for the above assessment components. It is rather a detailed grade that is chosen from 0 to 100 based on other criteria as well as the raw marks. An SNG of, say, 62 or 63 does NOT mean that the student's aggregate mark is one or two marks below the threshold for a Cr. The mark informs the student that he/she performed better than most other students in the P band but was not quite of the quality needed for a Cr.

## **Appeals and Exam Script Viewing**

All enquiries about appeal grades and exam script viewing for ACCG253 must be submitted in person at ERIC (E4B 106). For more information, refer to the EFS website.
