

**Economic and Financial Studies
Economics Department**

ECON141 – Introductory Econometrics

First Semester, 2007

UNIT OUTLINE

1. Overview of ECON141

The aim of ECON141 is to acquaint students with econometric techniques frequently used in the analysis of economic, financial and marketing data. A basic level of competence in using these techniques, together with an appreciation of their strengths and limitations, is essential for economists, financial analysts and market researchers.

The unit builds on statistical techniques covered in STAT170 (Introductory Statistics) with emphasis given to applications in economics, finance and marketing. Mathematical proofs and derivations are considered only to the extent necessary to facilitate an understanding of key concepts and the interpretation of results.

During the semester students will be required to use the WINDOWS based computer program ECSTAT, which runs in EXCEL. The use of this computer program is an integral component of tutorial exercises, supplementary and revision exercises, and the assignment. Instruction in the use of the computer program will be given in lectures, tutorials and practicals as required. The computing component of the unit is not examinable in the within-semester class test, the two mid-semester examinations or end-of-semester examination.

"Louis Armstrong was an economist. Every note was important, and it counted for something."

–ABC television program on Jazz.

"Econometrics is the quantitative arm of economics. It is the closest that economics gets to being a science."

–Roger Tonkin
Lecturer in Econometrics
Macquarie University

2. Prerequisites

ECON141 has two prerequisites. Students must have obtained at least a PC (or CQ) in:

- (i) STAT170, or STAT171; and
- (ii) ECON110, or ECON111, or BBA103

3. ECON141 Web Page and WebCT

The web address for this unit is: <http://online.mq.edu.au/pub/ECON141A/>
This web address is case sensitive. Students enrolled in ECON141 can log on to the Online Teaching Facility for the unit (i.e. WebCT) from the ECON141 Web Page.

4. Workload

Students are expected to devote AT LEAST nine hours each week to ECON141, including attendance at Lectures, Tutorials and the Computing Practical.

5. Text-book

The prescribed text-book for the unit is:

Gujarati, D.N.
ESSENTIALS OF ECONOMETRICS, Third Edition
McGraw-Hill/Irwin, 2006

Bound copies of the Lecture Notes used in ECON141 can be purchased from the University Cooperative Bookshop. The Lecture Notes, together with the lectures and text-book references, will provide students with a clear indication of the content and scope of the unit.

Students enrolled in ECON141 are strongly advised to purchase a copy of the Lecture Notes and a copy of the text-book.

6. Recommended Reference Books

The following reference books are highly recommended for all students enrolled in ECON141:

Studenmund, A.H.
USING ECONOMETRICS: A PRACTICAL GUIDE, Fifth Edition,
Pearson/Addison-Wesley, 2006

Dougherty, C.
INTRODUCTION TO ECONOMETRICS, Second Edition,
Oxford University Press, 2002

These two books have excellent non-technical discussions of the material discussed in ECON141. Some of the notation and some of the mathematical conventions used in formulae and equations in Studenmund's book differ from the notation and conventions used in many introductory econometric text-books and in ECON141. For that reason, and only for that reason, Studenmund's text-book cannot be recommended as a prescribed text-book for ECON141. There is a strong argument that students should be made aware of the differences in notation and conventions that exist in the econometric literature. The book by Studenmund serves that purpose for students enrolled in ECON141, in addition to providing a clear non-technical discussion of basic econometric concepts and procedures.

7. Supplementary Reading

There are a number of introductory books on Economic Statistics, Regression Analysis and Econometrics. Students may find the following books useful:

Bechtold, B., and R. Johnson,
STATISTICS FOR BUSINESS AND ECONOMICS,
PWS-Kent, 1989

Berenson, M.L., and D.M. Levine
BASIC BUSINESS STATISTICS, 5th Edition,
Prentice-Hall, 1992

Berry, W.D., and S. Feldman
MULTIPLE REGRESSION IN PRACTICE
Sage Publications, 1985

- * Cameron, S.
ECONOMETRICS
McGRAW-Hill, 2005

- Croucher J.S., and E. Oliver*
STATISTICS: A MODERN INTRODUCTION FOR BUSINESS AND
MANAGEMENT,
McGraw-Hill, 1986

- * *Halcoussis, D.,*
UNDERSTANDING ECONOMETRICS,
South-Western (Thompson), 2005

- * *Eastman, B.D.*
INTERPRETING MATHEMATICAL ECONOMICS AND
ECONOMETRICS
St Martin's Press, 1984

- * *Griffiths, W., R.C. Hill & G.G. Judge*
LEARNING AND PRACTICING ECONOMETRICS
Wiley, 1993

- * *Harrison, S.R., and R.H.U. Tamaschke*
APPLIED STATISTICAL ANALYSIS
Prentice-Hall, 1984

- * *Harrison, S.R., and R.H.U. Tamaschke*
STATISTICS FOR BUSINESS, ECONOMICS AND MANAGEMENT
Prentice-Hall, 1993

- Hebden, J.*
STATISTICS FOR ECONOMISTS
Philip Allan, 1981

- Hey, J.D.*
STATISTICS IN ECONOMICS
Martin Robertson, 1974

- ** *Hill, C., W. Griffiths and G. Judge*
UNDERGRADUATE ECONOMETRICS
John Wiley & Sons, 1997

- ** *Kelejian, H.W., and W.E. Oates*
INTRODUCTION TO ECONOMETRICS, 2nd Edition
Harper & Row, 1981

- * *Kennedy, P.*
A GUIDE TO ECONOMETRICS, 5th Edition
Blackwell, 2003

- Kenkel, J.L.*

INTRODUCTORY STATISTICS FOR BUSINESS AND ECONOMICS,
4th edition, Wiley, 1990

* Very good non-technical references

** Very good technical references

8. Other Entry-Level and Intermediate-Level Econometric Text-books

Students who are majoring in Economics, Applied Econometrics or Applied Finance, or who are considering a major in these areas, may find the following recently published books useful:

Gujarati, D.N.
BASIC ECONOMETRICS, 4th Edition,
McGraw-Hill, 2003

Koop, G.
ANALYSIS OF ECONOMIC DATA, 2nd Edition,
Wiley, 2005

Heij, C., P. de Boer, P.H. Franses, T. Kloek and H.K. van Dijk
ECONOMETRIC METHODS WITH APPLICATIONS IN BUSINESS AND ECONOMICS,
Oxford University Press, 2004

Murray, M.P.
ECONOMETRICS: A MODERN INTRODUCTION
Addison-Wesley / Pearson International, 2006

Patterson, K.
AN INTRODUCTION TO APPLIED ECONOMETRICS: A TIME SERIES APPROACH, Palgrave, 2000

Schmidt, S.J.
ECONOMETRICS
McGraw-Hill Irwin, 2005

Stock, J.H., and M.W. Watson
INTRODUCTION TO ECONOMETRICS, 2nd Edition,
Addison-Wesley / Pearson International, 2007

Verbeek, M.
A GUIDE TO MODERN ECONOMETRICS, 2nd Edition,
Wiley, 2004

Vogelvang, B.
ECONOMETRICS: THEORY AND APPLICATIONS WITH EVIEWS
Pearson Education / Prentice-Hall, 2005

Wooldridge, J.M.
INTRODUCTORY ECONOMETRICS: A MODERN APPROACH, 2nd Edition,
South-Western College Publishing / Thomson Learning, 2005

9. Learning Outcomes

All academic programs at Macquarie University seek to assist students develop generic skills in a range of areas. One of the aims of ECON141 is to assist students develop skills in numeracy, information technology, critical analysis and problem solving.

10. Teaching, Learning and Assessment Strategy

The purpose of the final examination for ECON141 is to assess each student's understanding of the concepts and procedures discussed in lectures and tutorials.

A major aim of the within-semester assessment in ECON141 is to encourage and develop in students the capacity for self-motivated and self-directed learning.

11. Class Arrangements

Students enrolled in ECON141 are required to attend thirty-nine hours of lectures (i.e. three hours each week), ten one-hour tutorial classes, and one one-hour computing practical.

Non-attendance at lectures, tutorials, and the computing practical, is the surest way to guarantee failure.

| | | |
|-----------------------------|----------------|---|
| Lectures: | Evening Stream | Monday 6 – 9 pm, Mason Theatre |
| | Day Stream | Tuesday 1 – 4 pm, E7B T3 |
| Tutorial Classes: | : | Weeks 3, 5, 6, 7, 8, 9, 10, 11, 12 and 13 |
| Computing Practical: | : | Week 4 |

Lectures, tutorials and computing practicals commence at 5 minutes past the hour and end at 5 minutes to the hour.

| Week | Date | Tutorial Exercise | Tutorial Class | Computing Exercise | Computing Practical |
|-----------------------------------|--------------------|-------------------|----------------|--------------------|---------------------|
| 1 | Feb 26 – March 2 | * | | | |
| 2 | March 5 – 9 | * | | | |
| 3 | March 12 – 16 | * | * | | |
| 4 | March 19 – 23 | * | | * | * |
| 5 | March 26 – 30 | * | * | | |
| 6 | April 2 – 5 | * | * | * | |
| April 10 – 20 Mid-Semester Recess | | | | | |
| 7 | April 23–24, 26–27 | * | * | * | |
| 8 | April 30 – May 4 | * | * | * | |
| 9 | May 7 – 11 | * | * | * | |
| 10 | May 14 – 18 | * | * | * | |
| 11 | May 21 – 25 | * | * | * | |
| 12 | May 28 – June 1 | * | * | * | |
| 13 | June 4 – 8 | * | * | * | |

| | |
|-----------|--|
| April 6: | Easter Friday public holiday (Week 6) |
| April 9: | Easter Monday public holiday (Mid-Semester Recess) |
| April 25: | Anzac Day public holiday (Week 7) |
| June 11: | Queen's Birthday public holiday (Examination Period) |

In Week 7, tutorials time-tabled on Anzac Day will be held on Friday 27th April.

12. Prerequisite Revision Topics

Measures of Central Location in Populations and Samples

Measures of Variability in Populations and Samples

Summation Notation

The Relative Frequency definition of Probability

The Normal Distribution

The t-distribution

Sampling Distributions

Basic procedures in statistical inference

Type I and Type II errors

The Power of a Test

Properties of Estimators: Unbiasedness and Efficiency

13. Lecture Program

A full list of the lecture topics for ECON141 is provided on the next page.

| | |
|---------|----------------------------|
| Week 1 | Introduction, Topics 1 & 2 |
| Week 2 | Topics 3, 4 & 5 |
| Week 3 | Topic 6 |
| Week 4 | Topics 7 & 9 |
| Week 5 | Topics 11 & 12 |
| Week 6 | Topics 13 & 14 |
| Week 7 | Topics 15 & 16 |
| Week 8 | Topics 17, 18 & 19 |
| Week 9 | Topics 20, 21 & 22 |
| Week 10 | Topics 23 & 24 |
| Week 11 | Topics 25 & 26 |
| Week 12 | Revision Examples |
| Week 13 | Exam Briefing |

Topic 8 will be dealt with in the Computing Practical in Week 4.

Aspects of Topic 10 will be discussed in the relevant lectures in Weeks 5 to 11.

14. Lecture Topics

| | |
|----------|--|
| TOPIC 1 | Basic Statistical Concepts |
| TOPIC 2 | Confidence Interval Estimation |
| TOPIC 3 | Hypothesis Testing |
| TOPIC 4 | Mathematical Expectation |
| TOPIC 5 | Desirable Properties of Estimators |
| TOPIC 6 | Two-Variable Regression Analysis The Model and Assumptions Estimation of the Two Variable Regression Model |
| TOPIC 7 | Statistical Inference and Prediction in Regression Analysis |
| TOPIC 8 | Computing in ECON141 – ECSTAT |
| TOPIC 9 | An example of Regression Analysis using ECSTAT |
| TOPIC 10 | Additional Computing Procedures |
| TOPIC 11 | Non-Linearities in Regression Models |
| TOPIC 12 | An example of Non-Linearity using ECSTAT |
| TOPIC 13 | Correlation and Regression |
| TOPIC 14 | ANOVA in the Two-Variable Regression Model |
| TOPIC 15 | Multiple Regression Analysis The Model and Assumptions Estimation and Statistical Inference |
| TOPIC 16 | Structural Change in Regression Models Dummy Variables in Regression Models Polynomial Regression Models |
| TOPIC 17 | Examples of Multiple Regression using ECSTAT |
| TOPIC 18 | ANOVA in Multiple Regression Models |
| TOPIC 19 | Heteroscedasticity |
| TOPIC 20 | Autocorrelation |
| TOPIC 21 | The Durbin-Watson Test |
| TOPIC 22 | Examples of Autocorrelation using ECSTAT |
| TOPIC 23 | Multicollinearity |
| TOPIC 24 | Specification Error |
| TOPIC 25 | Examples of Specification Error using ECSTAT |
| TOPIC 26 | Seasonality in Regression Analysis |

References for these topics are provided in Appendix (2).

15. Tutorial/Computing Exercises

The tutorial program commences in Week 1. Students are required to attempt **tutorial and/or computing exercises** each week from Week 1 to Week 13 (inclusive). From Week 5 the tutorial exercises are based on computing exercises which must be completed before the tutorial exercise can be attempted.

Formal **tutorial classes** commence in Week 3, followed by a Computing Practical in Week 4. Computing Practicals replace tutorial classes in Week 4 only. Computing Practical groups are exactly the same as the Tutorial Groups. Locations for the Computing Practicals will be advised in the tutorials in Week 3 and on the ECON141 WebCT site.

After Week 4, formal tutorial classes continue in Weeks 5, 6, 7, 8, 9, 10, 11, 12 and 13.

There are no tutorial classes or computing practicals in Weeks 1 or 2.

Although there are no tutorial classes in Weeks 1 and 2, students should note that tutorial exercises have been set for each of the first two weeks. These exercises revise essential aspects of the statistical prerequisite material for the unit. They are an important part of the tutorial program and should not be neglected simply because there are no formal tutorial classes in those weeks. Students are expected to be able to complete the tutorial exercises set for Weeks 1 and 2 without assistance from staff. The solutions for these exercises will be placed on e-Reserve in the library, and on WebCT. Students may discuss any issues or difficulties arising from these exercises with staff during staff consultation hours.

Students should attempt as many exercises as possible before the tutorial sessions so that they may more effectively benefit from the discussion. It is important that students be in a position when they attend tutorials to indicate which aspects of the exercises should be given priority.

Details of the **Tutorial and Computing Practical Exercises** are provided in a separate handout. They can also be accessed on the ECON141 WebCT site.

Detailed tutorial solutions will be available on the ECON141 WebCT site, and on e-Reserve, on the Friday prior to the relevant tutorial.

Students are strongly advised to attend tutorials. The best advice that can be given to an ECON141 student is to attend lectures and tutorials, and to attempt the tutorial exercises **before** attending tutorials and **before** looking at the solutions on e-Reserve or on WebCT.

16. Assessment

There are three types of assessment in ECON141: an **optional** within-semester self-assessment component, an **optional** within-semester objective component, and a **compulsory** end-of-semester objective examination.

NOTE

It is the policy of the Economics Department that students enrolled in a unit offered by the Economics Department must pass the final examination to pass the unit.

Grades in ECON141 (S1, 2007) will be based entirely on the End-of-Semester Examination. That is, the weight of the End-of-Semester Examination in the grade for ECON141 is 100%.

Students who do not attend the End-of-Semester ECON141 Examination will be given a grade of FA for the unit.

17. Optional Within-Semester Self Assessment

The optional within-semester self-assessment component consists of a series of Supplementary and Revision Exercises which students may work through in their own time, and which students mark themselves. Details of the Supplementary and Revision Exercises are provided in a separate handout. They can also be accessed from the ECON141 WebCT site.

Detailed Solutions for the Supplementary and Revision Exercises will be available on e-Reserve in the Library, and on the ECON141 WebCT site.

The purpose of the Supplementary and Revision Exercises is to enable students to judge for themselves how well they understand the lecture and tutorial material. The Supplementary and Revision Exercises are an extensive and exhaustive set of exercises. Many of the exercises are repetitive. **It is not intended that students work through all of the Supplementary & Revision exercises.** Students should use these exercises to the extent that they believe they need additional practice, repetition and reinforcement in using the techniques and procedures discussed in the ECON141 lectures and tutorials, and in interpreting the results.

18. Optional Within-Semester Objective Assessment

The optional within-semester objective component consists of:

- (a) an optional Online Test of Revision Material
- (b) an optional Take-Home Mid-Semester Assignment
- (c) two optional Online Within-Semester Examinations

These three aspects of the assessment are entirely optional in the sense that students must decide for themselves whether they submit the Test of Revision Material, submit the Assignment, submit the two Within-Semester Examinations, or none of these. If students elect to submit the Test, submit the Assignment or submit the two Within-Semester Examinations, their work will be marked objectively. The Test and the two Within-Semester Examinations will be submitted and marked electronically on WebCT. The Assignment will be marked by staff and returned to students.

The purpose of these three optional aspects of the within semester assessment is to enable students to obtain an objective measure of how well they have understood the material covered in the relevant sections of the lecture and tutorial program.

19. Optional Online Test of Revision Material

This Test will be distributed to students via WebCT in Week 4. The WebCT online submission deadline for this Test is 11:55 p.m. on Sunday 25th March.

20. Optional Take-Home Mid-Semester Assignment

The Assignment will be distributed to students in the lectures in Week 6. The deadline for submission of the Assignment is 4:30 p.m. on Friday 27th April. The Assignment must be placed in the ECON141 box in the EFS Resource and Information Centre (ERIC), E4B-106. After-hours submissions may be placed in the ERIC after-hours box. Do **not** submit assignments directly to the lecturer or to tutors. Do **not** submit assignments under the lecturer's door or under a tutor's door. Even if your assignment is late it must be submitted in the ECON141 box in ERIC, or in ERIC's after-hours box.

21. Two Optional Online Within-Semester Examinations

The first and second Within-Semester Examinations will be distributed to students via WebCT in Weeks 9 and 11 respectively. The WebCT online submission deadline for the first Within-Semester Examination is 11:55 p.m. on Sunday 13th May, and for the second Within-Semester Examination is 11:55 p.m. on Sunday 27th May.

22. End-of-Semester Examination

The final component of the assessment is compulsory. It is the End-of-Semester Examination. All students enrolled in ECON141 are required to attend the End-of-Semester Examination. The purpose of the End-of-Semester Examination is to objectively determine the grade for each student enrolled in ECON141.

23. Format of the End-of-Semester Examination

The End-of Semester Examination will have two sections: a multiple choice section, worth 40 marks, and a written-answer section, worth 60 marks.

The examinable content for the End-of-Semester examination consists of all the material discussed in lectures and tutorials from Weeks 1 – 13 (inclusive) except those tasks directly related to obtaining ECSTAT computing output. ECSTAT computing procedures are not examinable. However, students are required to be able to identify, summarise and discuss ECSTAT computer output.

24. Formulae Sheet

A formulae sheet will be provided to students in the End-of-Semester Examination. A copy of the formulae sheet will be available on the ECON141 WebCT site for inspection by students at least two weeks prior to the examination, and will be discussed in the final Exam Briefing lecture in Week 13.

25. Calculators

Some numerical calculations will be required in the End-of-Semester Examination. A basic calculator is all that will be required to carry out these calculations. Students will be permitted to take **non-programmable calculators only** into ECON141 End-of-Semester Examination. A calculator is non-programmable if it does not have memory, or if it is capable of storing only numerical data in memory. Calculators that are capable of storing alphabetic characters in memory will **NOT** be permitted in the ECON141 End-of-Semester Examination.

26. Supplementary Assessment

Students who are prevented by circumstances beyond their control from attending the End-of-Semester Examination, or whose performance in the examination is affected by circumstances beyond their control, may submit a request for special consideration to be allowed to sit for a Supplementary End-of-Semester Examination, or to have these circumstances taken into account in determining the student's grade. (See Section 27 on Special Consideration.)

Students will not be able to request special consideration for the optional within-semester components of assessment. That is, students will not be able to request permission to submit a Supplementary or Deferred Test of Revision Material, a Supplementary or Deferred Assignment, or Supplementary or Deferred Within-Semester Examinations.

27. Special Consideration

The rules and procedures governing Special Consideration are set out on page 42 of the Macquarie University *2007 Handbook of Undergraduate Studies*. It is the responsibility of all students enrolled in ECON141 to ensure that they have read and understand the rules and procedures governing Special Consideration.

Note: The University Senate has determined that minor illnesses are **NOT** sufficient grounds for being granted special consideration.

Note: The University Senate has determined that students in a unit will not be granted special consideration if their coursework for that unit is unsatisfactory, or if their participation in the unit is unsatisfactory.

In ECON141, results in the Optional Online Test of Revision Material, the Optional Take-Home Mid-Semester Assignment, and the Optional Online Within-Semester Examinations will be used as an indicator of the extent to which a student's coursework and participation in the unit can be deemed satisfactory. Attendance at Tutorials will also be used as an indicator of the extent to which a student's participation in the unit can be deemed satisfactory.

28. Attendance at Lectures and Tutorials

Attendance at Lectures and Tutorials is not compulsory, **but is strongly recommended**. Attendance at Tutorials will be recorded, and will be used, if necessary, together with the results of the Optional Within-Semester Objective Assessment, as an indicator of the extent to which a student's participation in the unit can be deemed satisfactory.

29. University Policy on Examination Attendance

Students are expected to attend the End-of-Semester examination at the time and place designated in the University Examination Timetable. The timetable will be available in draft form approximately eight weeks before the commencement of the examinations and in final form approximately four weeks before the commencement of the examinations. The Draft and Final Examination Timetable will be available at: <http://www.timetables.mq.edu.au/exam>

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances a student may apply for Special Consideration. Information about unavoidable disruption and the Special Consideration process is available on page 42 of the Macquarie University 2007 *Handbook of Undergraduate Studies*, on the EFS web-site, and at: <http://www.reg.mq.edu.au/Forms/APScons.pdf>

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. Supplementary examinations conducted by the Division of Economic and Financial Studies for first semester units are normally scheduled during the period between the release of the examination grades and the start of the second semester.

It is Macquarie University policy not to set special early examinations for particular individuals or groups of students. All students are expected to ensure that they are available for examinations until the end of the teaching semester; that is, until the final day of the official examination period.

30. University Policy on Appeals by Students Against Grades

The rules and procedures governing Appeals by Students Against Grades are set out on pages 43-45 of the Macquarie University 2007 *Handbook of Undergraduate Studies*, and on the EFS web-site. It is the responsibility of all students enrolled in ECON141 to ensure that they have read and understand the rules and procedures governing Appeals by Students Against Grades.

31. Lecturer-In-Charge

Roger Tonkin E4A-524 Ph: 9850-8494
email: rtonkin@efs.mq.edu.au

32. Tutor-In-Charge and Web-Master

Rebecca Reeve E4A-420 Ph: 9850-8495
email: rdreeve@efs.mq.edu.au

33. Other ECON141 Staff

A list of room numbers, University phone numbers and email addresses for other full-time staff teaching in ECON141 will be provided to students on the ECON141 WebCT site as soon as the teaching arrangements have been finalised.

34. Staff Consultation Hours.

Students are encouraged to consult the teaching staff of ECON141 on all matters relating to the unit, particularly issues or difficulties arising from the lecture and tutorial content, during staff consultation hours. Details of consultation hours will be displayed on the office doors of the full-time ECON141 staff and on the ECON141 WebCT site.

35. After-Hours Consultation

Part-time and evening students may contact the Lecturer-in-Charge, Roger Tonkin, or the Tutor-In-Charge, Rebecca Reeve, to arrange a suitable time for an appointment outside the scheduled staff consultation hours, particularly after 5 pm if consultation before 5 pm is not possible because of employment, etc.

Roger Tonkin
Lecturer-In-Charge
February, 2007

APPENDICES

- (1) Greek Alphabet
- (2) References
- (3) Standardised Numerical Grades (SNGs)
- (4) Plagiarism
- (5) Student Support Services
- (6) Nine Key Points in a Strategy for Surviving and Passing
ECON141

APPENDIX (1): GREEK ALPHABET

Listed below are the upper and lower case letters of the Greek alphabet and their names. Greek symbols are used extensively in the discussion of econometric methods.

| <i>Large character</i> | <i>Small Character</i> | <i>Name</i> | <i>Large character</i> | <i>Small Character</i> | <i>Name</i> |
|------------------------|------------------------|-------------|------------------------|------------------------|-------------|
| A | α | Alpha | N | ν | Nu |
| B | β | Beta | Ξ | ξ | Xi |
| Γ | γ | Gamma | O | \omicron | Omicron |
| Δ | δ | Delta | Π | π | Pi |
| E | ϵ | Epsilon | P | ρ | Rho |
| Z | ζ | Zeta | Σ | σ | Sigma |
| H | η | Eta | T | τ | Tau |
| Θ | θ | Theta | Y | υ | Upsilon |
| I | ι | Iota | Φ | ϕ | Phi |
| K | κ | Kappa | X | χ | Chi |
| Λ | λ | Lambda | Ψ | ψ | Psi |
| M | μ | Mu | Ω | ω | Omega |

APPENDIX (2): TEXT-BOOK REFERENCES

A detailed list of references for ECON141 from the current text-book is provided below, supplemented, where necessary, with references from two previous text-books written by Harrison & Tamaschke. The sources for these references are:

Gujarati, D.
ESSENTIALS OF ECONOMETRICS

Harrison, S.R. and Tamaschke R. H. V.
STATISTICS FOR BUSINESS, ECONOMICS AND MANAGEMENT
Prentice-Hall, 1993

Unless stated otherwise, the references are from Gujarati, **Third Edition**, 2006.

INTRODUCTION

Chapter 1, pages 1-5

TOPIC 1 - BASIC STATISTICAL CONCEPTS

Chapter 2, Sections 2.1 - 2.5

(Omit Bayes' Theorem, page 32)

Chapter 3, Section 3.7

Chapter 4, Sections 4.1 - 4.2

TOPIC 2 - ESTIMATION

Chapter 5, Sections 5.1 - 5.3

TOPIC 3 - HYPOTHESIS TESTING

Chapter 5, Section 5.5

TOPIC 4 - MATHEMATICAL EXPECTATION

Chapter 3, Sections 3.1 - 3.4

(Omit Chebyshev's Inequality, page 57)

(Omit Coefficient of Variation, page 58)

TOPIC 5 - PROPERTIES OF ESTIMATORS

Chapter 5, Section 5.4

(Omit Consistency, pages 113-114)

TOPIC 6 - TWO-VARIABLE LINEAR REGRESSION ANALYSIS

Chapter 1, Sections 1 - 3

Chapter 6, Sections 1 - 5, and 8 - 11

Chapter 7, Sections 7.1 and 7.3

TOPIC 7 - STATISTICAL INFERENCE IN TWO-VARIABLE LINEAR REGRESSION

Chapter 7, Sections 7.2, 7.4, 7.5, 7.7 - 7.8, and 7.10 - 7.12

TOPIC 9 - See TOPICS 6 & 7

TOPICS 11 & 12 - NONLINEAR RELATIONSHIPS

Chapter 6, Section 6

Chapter 9, Sections 1 - 2 and 4 - 5

Chapter 9, Appendix 9A

TOPICS 13 & 14 - THE ANALYSIS OF VARIANCE IN THE TWO-VARIABLE LINEAR REGRESSION MODEL

Chapter 3, Sections 3, 4, and 7

(Omit Sample Skewness and Kurtosis, page 72)

Chapter 4, Section 4

Chapter 7, Section 6

NOTE:

A basic understanding of the concept of Covariance is essential for a full understanding of Correlation (in both Populations and Samples).

Similarly, a basic familiarity with the relationship between Chi-Square distributions and the F distribution is essential for a full appreciation of the theoretical features and construction of F distributions.

Covariance, and the Chi-Square distribution, are not examinable in ECON141.

Specific text-book references for the Analysis of Variance in Linear Regression models are provided with the references for TOPIC 15 and TOPIC 18.

ADDITIONAL REFERENCES FOR TOPICS 13 & 14 - THE ANALYSIS OF VARIANCE IN THE TWO VARIABLE REGRESSION MODEL

Harrison S.R. and H.U. Tamaschke, APPLIED STATISTICAL ANALYSIS, Prentice-Hall, 1984

Chapter 12, Section 5.4, and Sections 7-9

TOPIC 15 - MULTIPLE REGRESSION ANALYSIS

Chapter 1, Section 3

Chapter 6, Section 7

Chapter 8, Sections 1 - 8, and Section 13

(Omit equations 8.17 - 8.25, 8.27 - 8.28, and 8.31)

ANOVA IN MULTIPLE REGRESSION – See TOPIC 18

TOPIC 16 - QUALITATIVE VARIABLES IN MULTIPLE REGRESSION ANALYSIS

Chapter 10, Sections 1 - 5

TOPIC 17 - POLYNOMIAL REGRESSION MODELS

Chapter 9, Section 7

TOPIC 18 - ANOVA IN MULTIPLE REGRESSION MODELS

Chapter 8, Section 4 and Section 8

ECONOMICS AND MANAGEMENT, Prentice-Hall, 1993

Chapter 10, Sections 1, 2, 3 and 4

TOPIC 19 - HETEROSCEDASTICITY

Chapter 13, Section 1, Section 2 and pages 399-402 of Section 3

(Omit Park Test)

TOPIC 20 - AUTOCORRELATION

Chapter 14, Section 1 and Section 2

TOPICS 21 - THE DURBIN-WATSON TEST FOR FIRST-ORDER AUTOCORRELATION

Chapter 14, Sections 3, 4 and 6

(Omit The First Difference Method, pages 442-443)

TOPIC 22 - See TOPICS 20 & 21

TOPIC 23 - MULTICOLLINEARITY

Chapter 12, Sections 1 - 9

(Omit Subsidiary, or Auxiliary, Regressions, page 373)

(Omit the Variance Inflation Factor, VIF, page 374)

TOPICS 24 & 25 - SPECIFICATION ERROR IN REGRESSION ANALYSIS

Chapter 8, Section 9

Chapter 11, Sections 2 - 5, Section 7 and Section 8

(Omit the MWD Test, pages 353-353)

Chapter 14, Section 1, page 430 (Model Specification Errors)

TOPIC 26 - MODELLING SEASONAL EFFECTS USING DUMMY VARIABLES

Chapter 10, Section 6

DUMMY VARIABLE TRAP

Chapter 10, Section 10.1, page 295

APPENDIX (2) CONTINUED: OTHER REFERENCES

A detailed list of references for ECON141 is given in the tables on the next two pages. The two sources for these references are the **second edition** of the current text-book written by Gujarati, and a previous text-book, written by Harrison and Tamaschke:

Gujarati, D.

ESSENTIALS OF ECONOMETRICS

Second Edition

Irwin/McGraw-Hill, 1999

Harrison, S.R. and Tamaschke R. H. V.

STATISTICS FOR BUSINESS, ECONOMICS AND MANAGEMENT

Prentice-Hall, 1993

| Topics | Reference in Gujarati 2 nd Edition | Reference in Harrison & Tamaschke |
|---|---|-----------------------------------|
| The role of Econometrics in Economic Analysis | Chapter 1 | |
| Basic Statistical Concepts: A Review | | |
| 1. Random Variables | 2.3 | 2.1, 2.2, 2.4 |
| 2. Probability density function | 2.5 | |
| 3. Rules of Summation | 2.1 | 3.1, 3.2 |
| 4. Mean of a random variable | 2.7 | |
| 5. Variance of a random variable | 2.7 | 4.1, 4.2, 4.3 |
| 6. Standard deviation of a random variable | 2.7 | |
| 7. Populations and samples | 2.8 | 5.2, 5.3, 5.4.4 |
| 8. Normal distribution | 3.1 | |
| 9. t-distribution (using t tables) | 3.4 | 6.1, 6.2, 6.3 |
| Statistical Inference | | |
| 1. Statistical Inference | 4.5 | 7.3.1, 7.3.3 |
| 2. Estimation of Parameters: Point vs. Interval | 4.5 | 7.4.1-7.4.3 |
| 3. Hypothesis Testing | 4.5 | |
| 4. Properties of Point Estimators | 4.4 | 8.1-8.5 |
| The Two –Variable Regression Model | | |
| 1. Purpose | 5.1 | 9.2, 9.3, 9.4 9.5, 9.7.1 |
| 2. Assumptions | | |
| 3. The error term | 5.4 | |
| 4. Population and sample regression | 5.5 | |
| 5. Least squares estimates | 5.8 | |
| 6. Interpretation of the coefficients | 5.8 | |
| 7. Elasticities | 8.1 | |
| 8. Prediction | 6.11 | |
| Properties of Least Squares Estimators | | |
| 1. Mean and variance of the LS estimators | 6.3 | 9.6.1 |
| 2. Gauss Markov Theorem | 6.3 | 9.6.2 |
| 3. Probability distribution of the LS estimators | 6.4 | |
| Inference in the Simple Linear Regression Model | | |
| 1. Confidence intervals for the coefficients of the regression model | 6.5 | 9.6.3 9.7.3 |
| 2. Hypothesis testing | 6.5 | |
| 3. Prediction intervals | 6.11 | |
| Analysis of Variance and Coefficient of Determination in the Two -Variable Model | | |
| 1. Analysis of Variance | 6.6 | 9.6.4 |
| 2. Coefficient of determination | 6.6 | 9.8 |
| 3. Sample correlation coefficient | 6.6 | 9.9 |
| 4. Comparing correlation and regression analysis | 6.6 | |
| 5. Reporting regression results | 6.7 | |

| Topics | Reference in Gujarati 2nd Edition | Reference in Harrison & Tamaschke |
|---|---|--|
| Functional Forms of Regression Models | | 10.5 |
| 1. Introduction to Functional Forms | 8 | |
| 2. Log-Linear (log-log or double log) Models Measuring Elasticity | 8.1 | |
| 3. Linear vs. Log-Linear Models | 8.2 | |
| The Multiple Regression Model | | 10.1, 10.2 |
| 1. Assumptions | 7.1, 7.2 | |
| 2. Interpretation of the coefficients | 7.2 | |
| 3. LS estimation | 7.3 | |
| 4. Probability distribution of the LS estimators | 7.3 | |
| 5. Interval estimation | 7.7 | |
| Hypothesis Testing in the Multiple Regression Model | | |
| 1. Student t-tests | 7.6, 7.7 | 10.3 |
| 2. Goodness-of-Fit | 7.5 | 10.5 |
| 3. F-Tests | 7.8 | |
| 4. ANOVA Table | 7.8 | |
| 5. Non linear functional forms: log-log and polynomial Models | 8.1, 8.2, 8.3, 8.7 | |
| 6. Prediction | | |
| Multicollinearity | | |
| 1. The nature of multicollinearity | | |
| 2. Effects of multicollinearity | 10.1, 10.2 | 10.6 |
| 3. Identifying multicollinearity | 10.3, 10.4 | |
| 4. Mitigating multicollinearity | 10.5 | |
| Dummy Variables | 10.8 | |
| 1. Intercept Dummy Variables | | |
| 2. Slope Dummy Variables | 9.1, 9.2 | 10.4 |
| 3. Different Intercepts & Slopes | 9.2 | |
| 4. Testing for the existence of a qualitative effect. | 9.2 | |
| 5. Testing for a structural break | 9.2 | |
| 6. Seasonal Dummy variables | 9.6, 9.7 | |
| Heteroscedasticity | | |
| 1. The nature of heteroscedasticity | 11.1 | 10.7.2 |
| 2. The consequences of heteroscedasticity | 11.2 | |
| 3. Detecting heteroscedasticity | 11.3 | |
| Autocorrelation | | |
| 1. The nature of autocorrelation | 12.1 | 10.7.1 |
| 2. The consequences of autocorrelation | 12.2 | |
| 3. Detecting autocorrelation: Durbin Watson test | 12.3 | |
| Model Specification | | |
| 1. Formulating a Model | 13.1 | |
| 2. Attributes of a Good Model | 13.1 | |
| 3. Types of Specification Errors | 13.2 | |
| 4. Detecting Specification Errors | 13.3 | |

APPENDIX (3): STANDARDISED NUMERICAL GRADES

The Academic Senate has a set of guidelines on the distribution of grades across the range from fail to high distinction. Your final result will include one of these grades plus a standardised numerical grade (SNG).

Your raw mark for a unit (i.e. the total of your marks for each assessment item) may not be the same as the SNG which you receive. Under the Senate guidelines, results may be scaled to ensure that there is a degree of comparability across the university, so that units with the same past performances of their students should receive similar results.

It is important that you realise that the policy does not require that a minimum of students be failed in any unit. In fact it does something like the opposite, in requiring examiners to explain their actions if more than 20% of students fail in a unit.

The process of scaling does not change the order of marks among students. A student who receives a higher raw mark than another will also receive a higher final scaled mark.

For an explanation of the policy see page 43 of the Macquarie University 2007 *Handbook of Undergraduate Studies*, and:

<http://www.mq.edu.au/senate/rules/Guidelines2003.doc> or
<http://www.mq.edu.au/senate/rules/detailedguidelines.doc>

APPENDIX (4): PLAGIARISM

The University defines plagiarism in its rules: ‘Plagiarism involves using the work of another person and presenting it as one’s own.’ Plagiarism is a serious breach of the University’s rules and carries significant penalties. You must read the University’s practices and procedures on plagiarism. These can be found in the Macquarie University *2007 Handbook of Undergraduate Studies* (pages 17 and 46-47) or on the web at: <http://www.student.mq.edu.au/plagarism/>

The policies and procedures explain what plagiarism is, how to avoid it, the procedures that will be taken in cases of suspected plagiarism, and the penalties if you are found guilty. Penalties may include a deduction of marks, failure in the unit, and/or referral to the University Discipline Committee.

APPENDIX (5): STUDENT SUPPORT SERVICES

Macquarie University provides a range of Academic Student Support Services. Details of these services can be accessed at <http://www.student.mq.edu.au>.

APPENDIX (6):

NINE KEY POINTS IN A STRATEGY FOR SURVIVING ECON141 AND PASSING

1. Attend as many lectures as possible.
2. Attend as many tutorials as possible.
3. Attempt the tutorial exercises before attending the relevant tutorials and before you inspect the answers on e-Reserve or on WebCT.
4. If you miss a tutorial, make sure you attempt the exercises as soon as possible, and that you attempt the exercises before you inspect the answers on e-Reserve or on WebCT.
5. Attempt the Optional Within-Semester Assessment.
6. After each tutorial, if you need additional practice exercises, attempt as many of the relevant Supplementary & Revision exercises as required until you feel you have mastered the techniques contained in those exercises.
7. Attempt the Supplementary & Revision exercises before you inspect the answers on e-Reserve or on WebCT.
8. If you don't understand the material in the tutorials, the computing practical, or the material in the Supplementary & Revision exercises, consult the ECON141 staff as soon as possible. Don't wait till later in the semester.
9. Keep up to date with the work. Don't fall into the trap of thinking you will be able to do the work later.
