Department of Marketing and Management

**MACQUARIE UNIVERSITY
FACULTY OF BUSINESS & ECONOMICS
DEPARTMENT OF MARKETING AND MANAGEMENT
UNIT GUIDE**

Year and Semester: Semester Two 2011

Unit convenor and lecturer in charge: Ms Shuqin Zhu

Prerequisites: MKTG101

Credit points: 3

Students in this unit should read this outline carefully before we start our lecture sessions. It contains important information about the unit. If anything in it is unclear, please consult the teaching staff in the unit.

ABOUT THIS UNIT

BUS201 is a 3 credit point unit. It is a single semester unit. The number of credit points that a unit is worth is determined by the number of hours that a student is expected to spend each week attending lectures, reading and preparing assignments. For a single semester unit, students are expected to spend at least 24 hours per credit point on work related to the unit. Students are strongly advised to prepare their study timetable accordingly. Successful performance in the exam requires knowledge and understanding of the content of the lectures and set readings.

Welcome to Introduction to International Business!

Previous students have found this subject to be a very interesting one and I trust that you will find the same. In recent years, the study of international business has gained prominence and popularity. Although international business has many similarities with domestic business, there are some important differences. International business includes all business activities that involve business organisations from two or more countries. At the international level, managers must accommodate a highly complex environment. Key variables in this environment include different currencies, different government policies concerning trade, subsidies, controls on foreign investment, as well as the variables that exist in any domestic environment such as competition, costs and customer characteristics.

This unit covers the international environment including international trade and investment, and the legal, political, cultural and economic contexts faced by internationalising organisations.

Biography – Shuqin Zhu

B.A (*Shanghai International Studies University*), M.A (*East China Normal University*)
Ph.D – submitted (*Monash University*)

Ms Shuqin Zhu has previously taught at both Monash and RMIT Universities and in China at the East China Normal University. She has extensive experience in teaching - at both undergraduate and postgraduate level - in subjects such as International Business Theory and Practice, International Human Resource Management, Working with Diversity and Introduction to Management.

Ms Zhu obtained her Masters degree in ‘Vocational and Technical Education’ at East China Normal University and earned her Bachelor Degree in ‘English Teacher Education’ through a United Nations Educational, Scientific and Cultural Organisation (UNESCO) program delivered at Shanghai International Studies University. She recently completed her Ph.D at Monash University. Her doctorate investigates how Chinese multinational corporations respond to industrial relations challenges when they internationalise.

Prior to her academic career, Ms Zhu coordinated and managed a diverse range of cooperative projects between the Shanghai municipal government and a number of high-profile international organisations such as the International Labour Organisation (ILO) and the New Partnership for Africa's Development (NEPAD). After this experience, she continued this work at a number of international locations including Singapore, UK, Ireland and New Zealand.

Ms Zhu has published widely in China, Europe and Australia and is the author of 12 refereed conference papers, book chapters and journal articles. Her research interests include firm internationalisation, international human resource management and industrial relations.

Biography – Dr. Douglas Howe

B.E. (UNSW), MBA (MQ), DBA (CSU).

Dr Howe has over 30 years’ experience in the global telecommunications industry. His experience includes political, legal, regulatory, project management, engineering and procurement of telecommunications networks within and between Australia, New Zealand, UK, Europe, US, Japan, India, S.E. Asia and republics of the former Soviet Union.

Dr Howe has developed country and company strategies, product strategies and their development, contract proposals, managed the capital and financial needs of

telecommunications networks and undertaken commercial and technical negotiations for domestic and international telecommunications interconnection.

Dr Howe's thesis "Corporate Strategies of Telecommunications Companies 1999- 2002" investigated the "creative destruction" of the global telecommunication industry following the WTO General Agreement on Trade in Services (GATS) liberalisation of telecommunication services in 1997. He continues his research interest in global telecommunications and its effects on global services industries.

Since 2010, Dr. Howe has been teaching undergraduate business courses at Macquarie University and SIBT.

CONSULTATION TIMES

You are encouraged to seek help at a time that is convenient to you from a staff member teaching on this unit during their regular consultation hours. In special circumstances, an appointment may be made outside regular consultation hours. Staff will not conduct any consultations by email. You may, however, phone staff during their consultation hours.

Consultation sessions with the teaching staff will run at the Consultation Room at E4B104.

CLASSES

This unit is taught using lectures and 'applications lectures' (whole-of-class tutorials). The course consists of 36 hours of instruction. Students are expected to read in advance of lectures, and actively participate in applications lectures. It is an expectation that students will attend at least 80% of classes. Students will be expected to attend lectures fully prepared to discuss assigned readings as per the course outline. Students are expected to arrive on time, certainly before five minutes past the hour, and not to leave until the class ends. If you have a recurring problem that makes you late, or forces you to leave early, have the courtesy to discuss this with your lecturer/tutor. Students are expected to be quiet during lectures unless, of course, class participation is required. Mobiles should be turned off during classes; not simply set to "silent".

The timetable for classes can be found on the University web site at <http://www.timetables.mq.edu.au/>

BUS201 Introduction to international business tutorial schedule

Date	Topic	Assigned Work
<p>Tutorial 1</p> <p>08/08/11</p>	<p>The implications of globalisation</p> <p>*Please note that additional questions will be supplied during the lecture sessions</p>	<p>Read - Closing Case: 'Aussie Bum' (see pp.54-56)</p> <ol style="list-style-type: none"> 1. Considering the evidence from the AussieBum case, what are the main advantages and disadvantages of using the Internet as an export channel? 2. "AussieBum got lucky. It has a unique product, business model and image so its use of the Internet could not be widely replicated by other companies." Do you agree or disagree with this statement? Explain your answer. 3. AussieBum's internationalisation has been distinctive in other ways too. It was 'born global' in that international sales preceded domestic ones. Moreover, it has not pursued contract manufacturing offshore despite local manufacturing being a more expensive option. Why do you think the company has been able to make this potentially risky approach work?
<p>Tutorial 2</p> <p>15/08/11</p>	<p>Theories of trade and internationalisation</p> <p>*Please note that additional questions will be supplied during the lecture sessions</p>	<p>Learning and assessment tasks: (see p. 92)</p> <ol style="list-style-type: none"> 1. Drawing upon the new trade theory and Porter's theory of national competitive advantage, outline the case for government policies that would build national competitive advantage in a particular industry. What kind of policies would you recommend that the government adopt? Are these policies at variance with the basic free trade philosophy? 2. Compare and contrast these explanations of FDI: internalisation theory, Vernon's product life-cycle theory, and Knickerbocker's theory of FDI. Which theory do you think is likely to offer the best explanation of FDI? Why?
<p>Tutorial 3</p> <p>22/08/11</p>	<p>The political economy of trade</p> <p>*Please note that additional questions will be supplied during the lecture sessions</p>	<p>Learning and assessment tasks (see p. 143)</p> <ol style="list-style-type: none"> 1. While many countries recognise the benefits of dismantling trade barriers through the multilateral WTO system, many developing countries have significant reservations. Develop an argument against developing countries withdrawing from WTO negotiations on the liberalisation of trade and investment.

		2. Outline the economic and political arguments for regional economic integration. Given these arguments, explain why there are not more substantial examples of integration such as the EU in the world economy.
Tutorial 4 29/08/11	Culture and business *Please note that additional questions will be supplied during the lecture sessions	Read - Opening Case: DMG Dynamic Marketing Group (see pp.194-95) 1. Explain the concept of <i>guanxi</i> and <i>guanxiwang</i> . 2. Why do you think it is important to cultivate <i>guanxi</i> and <i>guanxiwang</i> in China? 3. Discuss what lessons can be learned from the experience of DMG in China.
Tutorial 5 5/09/11	Ethics and corporate responsibility *Please note that additional questions will be supplied during the lecture sessions	Read - Closing Case: Wal-Mart's Chinese suppliers (see pp. 357-358) 1. Wal-Mart has been accused of buying from companies that use sweatshop labour. In your opinion, is this a fair criticism of Wal-Mart? 2. What role do consumers play in creating an incentive for factory owners in developing countries to use sweatshop labour? 3. Do you think consumers will be willing to pay more for products if it meant that sweatshop conditions were eliminated?
Tutorial 6 12/09/11	Political and legal aspects of international business *Please note that additional questions will be supplied during the lecture sessions	Read - Country Focus: Corruption in Nigeria (see pp. 260-261) 1. What is meant by corruption? Explain how a corrupt political system affects the wellbeing of a country. 2. With its huge oil reserves and large population, Nigeria was expected to emerge as a major player in Africa. Yet today the country is extremely poor with little expectation for an economic turnaround any time in the near future. Explain how Nigeria came to be in such a sad state. 3. Clearly, Nigeria's corrupt government has been a major factor in the country's demise. In contrast, other countries including Finland and Canada expressly prohibit corruption. In your opinion, would Nigeria be better off following the example of countries like Finland and Canada? Why or why not?

RELATIONSHIP BETWEEN ASSESSMENT AND LEARNING OUTCOMES

Knowledge and understanding of the subject matter is assessed using a mixture of presentations, group reports, written submission, and multiple choice and short answer exam questions. The ability to work collaboratively and creatively to build a presentation of a group view is seen as a valid demonstration of commitment to mastering the subject matter.

This subject offers a number of elements which provide the student the opportunity to demonstrate their understanding of the material and ability to apply the concepts associated with international business.

Assessment Components - INDIVIDUAL ASSIGNMENT

The INDIVIDUAL ASSIGNMENT is worth 20% of your final grade

Each student will be expected to submit an individual assignment of 2,000 words in Week 5. The required format for the assignment is an **ESSAY**. The topic is as follows:

Choose and collect two newspaper or periodical articles that have relevance to international business. Both articles must be published between 1st August and 21st August 2011 in one or more Australian newspaper or periodical. Carefully select each article so that both fall into one of the major topic areas of international business.

Now respond to the following questions:

1. What are the implications for each of the selected articles for:
 - a. the Australian government
 - b. Australian businesses (meaning domestic firms)
 - c. Multinational corporations (meaning international firms)
2. In your opinion, what are the most relevant **international business theories** (discussed in Chapter 2 of your text and the basis of Lecture 2 in the lecture program) that could be used to analyse *each* or *both* of these articles? Give reasons for your answer

In analysing Question 2 you should choose either one different theory for each article (ie two theories) or one theory that can apply to both articles. .

Include copies of both articles (either the original ‘cut-outs’ or a print out of the article from the newspaper’s website) as appendices to your assignment.

Your essay should incorporate at least 12 different references. These can be sourced from the following:

- Academic articles
- Relevant textbooks
- Periodicals
- Newspapers
- Relevant online sources

The 12 references should be evenly balanced between these five resource options. Examples of all of these reference options are detailed on pages 5-6 of this guide.

Students are expected to maintain an appropriate standard in presenting their essay. Remember to acknowledge your sources throughout the paper using the Harvard referencing system. The report is to be typed and 1.5 spaced (a standard 12 point font should be used). It should be checked for spelling, consistency and clarity of expression. Late submission of the assignment will incur a penalty of 10% of the value of the assignment for every day that it is late. Your essay must be submitted to **Turnitin** at www.turnitin.com (for details see p. 19).

Assessment Components - GROUP REPORT

The REPORT is worth 20% of your final grade

You will be required to join a group (of no more than four students, preferably three), and develop a 4000 word written **REPORT** on the topic detailed below:

Analyse a developing and a developed country as a possible site for a 'greenfield' foreign direct investment. You selection of countries should be limited to the following choices:

- *'Developing': Cambodia, Nigeria or Columbia (choose one from these three)*
- *'Developed': Sweden, South Korea or Canada (choose one from these three)*

Assume that you are responsible for a large Australian manufacturing firm that is keen to internationalise by a 'greenfield' foreign direct investment via sole ownership. Consider the issues that would help you make such a business decision. For example –

- What are the advantages and disadvantages of investing in each country?
- How does the legal system affect business?
- What political, cultural and economic risks apply?

The paper should not only focus on the positive aspects of each country. It should be a balanced consideration of the overall prospects for successful investment there.

Finally, you should conclude as to which country will be the host of your investment – your final decision/recommendation must be supported and justified.

As this is a group exercise all members of the group are expected to contribute actively and substantially. While it is understood that some members of the group may provide more input in the research, whereas others may do more of the actual written work, the group will be required to acknowledge that all group members have given quality time to the project.

While writing your report, you should incorporate relevant theories and concepts to justify your arguments. Remember to acknowledge your sources throughout the paper using the Harvard referencing system (in-text referencing).

The report is to be typed and 1.5 spaced (a standard 12 point font should be used). It should be checked for spelling, consistency and clarity of expression.

Your report should incorporate at **least 30 different references**. These can be sourced from the following:

- Academic articles
- Relevant textbooks
- Periodicals
- Newspapers
- Relevant online sources

The 30 references need to be evenly balanced between these five resource options. Examples of all of these reference options are detailed on pages 5-6 of this guide.

Your report must be submitted to **Turnitin** at www.turnitin.com (for details below)

All group work is peer moderated (see Appendix 1)

In Week 11 each student will submit a peer evaluation assessment for each member in their group (including themselves). This will then allow a peer factor to be allocated to the Group's raw score for each individual student, allowing a dispersion of marks within the same group. **This peer factor is kept confidential. (See Appendix 1)**

Assessment Components – ESSAY & GROUP REPORT TURNITIN

Remember your individual essay and group report must be your own work. Therefore, both assignments must be submitted to **Turnitin** at www.turnitin.com. A link to Turnitin and instructions on how to submit an assignment to Turnitin are provided on Blackboard.

Please note that when submitting your essay and report you must include the following:

- Cover sheet with student name, student ID number, tutorial/class enrolment number, tutorial day and time;
- Turnitin receipt email. This email provides time and date proof of assignment submission to the Turnitin system; and
- Printed copy of the 'Originality Report' from Turnitin.

Any submission not containing a student cover sheet, a print out of the Turnitin Receipt email stating time/date of submission, as well as the Turnitin Originality report will not be marked.

In terms of the group report, each group is responsible for assessing its level of plagiarism. Although you can submit the report to Turnitin as many times as you like before the due date, only the final submission will count to Turnitin. Any Turnitin Report with 20%+ plagiarism will be carefully reviewed and marks deducted equivalent to the percentage plagiarised.

Assessment Components - TUTORIAL REPORTS AND CONTRIBUTION

Worth 10% of your final grade

Each week, your tutor will look for lively discussion and debate. 10 per cent of your total marks are attributable to your tutorial participation. You are expected to read the appropriate material listed in the tutorial schedule before each tutorial. You also will need to read the end-of-chapter questions, exercises, and case studies prior to your tutorial.

This is a mark for participation, NOT attendance (which is compulsory). Accordingly, you will be required to participate in informal presentations throughout the semester. In addition pop quizzes will be distributed in the tutorials at random dates

Assessment Components - FINAL EXAM

The FINAL EXAM is worth 50% of your final grade

A compulsory two hour final exam will be set during the exam period. The examination will be 'closed book'. The format of the final exam will be a combination of multiple choice and long essay questions.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations.

<http://www.timetables.mq.edu.au/exam>

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. The University's policy on special consideration process is available at

http://www.mq.edu.au/policy/docs/special_consideration/policy.html

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. (Individual Faculties may wish to signal when the Faculties' Supplementary Exams are normally scheduled.)

The Macquarie university examination policy details the principles and conduct of examinations at the University. The policy is available at:

<http://www.mq.edu.au/policy/docs/examination/policy.htm>

ACADEMIC HONESTY

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at

http://www.mq.edu.au/policy/docs/academic_honesty/policy.html

Plagiarism is a serious breach of the University's rules and carries significant penalties. You must read the University's practices and procedures on plagiarism. The policies and procedures explain what plagiarism is, how to avoid it, the procedures that will be taken in cases of suspected plagiarism, and the penalties if you are found guilty. Penalties may include a deduction of marks, failure in the unit, and/or referral to the University Discipline Committee. Correct referencing is essential. All data, quotes, figures and tables etc. must indicate source(s) from which they are obtained. You are to follow the Harvard Referencing Approach and a guide on correct referencing can be found on the following pages of this outline. The assignment must be typed. **Run your report through a spelling checker and a grammar checker before final submission.**

The emphasis is not on bulk writing but clearly expressed and supported description and analysis. Make sure the report is a coherent argument from start to finish. Use headings and subheadings to organize your report in a logical and coherent manner. Use of bullet points, tables, diagrams and graphs are often helpful in this respect. If tables, diagrams and graphs are used make sure to label and reference them correctly – they do not speak for themselves! It is appropriate to assign a group member to be responsible for reading through the complete report to ensure that the various sections of the report gel well. This will enable you to remove duplication of information if any, include additional information if necessary, avoid conflicting interpretations and enhance clarity and lucidity of the report.

The completed report should be something groups would be happy to share with the managers or with business analysts. It should be of a high standard of business writing and presentation.

GRADES

Macquarie University uses the following grades in coursework units of study:

SPECIAL CONSIDERATION

The University is committed to equity and fairness in all aspects of its learning and teaching. In stating this commitment, the University recognises that there may be circumstances where a student is prevented by unavoidable disruption from performing in accordance with their ability. A special consideration policy exists to support students who experience serious and unavoidable disruption such that they do not reach their usual demonstrated performance level. The policy is available at: http://www.mq.edu.au/policy/docs/special_consideration/procedure.html

STUDENT SUPPORT SERVICES

Macquarie University provides a range of Academic Student Support Services. Details of these services can be accessed at <http://www.student.mq.edu.au>.

IT CONDITIONS OF USE

Access to all student computing facilities within the Faculty of Business and Economics is restricted to authorised coursework for approved units. Student ID cards must be displayed in the locations provided at all times. Students are expected to act responsibly when utilising University IT facilities. The following regulations apply to the use of computing facilities and online services:

- Accessing inappropriate web sites or downloading inappropriate material is not permitted. Material that is not related to coursework for approved unit is deemed inappropriate.
- Downloading copyright material without permission from the copyright owner is illegal, and strictly prohibited. Students detected undertaking such activities will face disciplinary action, which may result in criminal proceedings.

Non-compliance with these conditions may result in disciplinary action without further notice. Students must use their Macquarie University email addresses to communicate with staff as it is University policy that the University issued email account is used for official University communication.

APPENDIX 1
STUDENT EVALUATION OF MEMBER PARTICIPATION

In order to encourage equal participation on the part of all group members, each group will complete and turn in an evaluation of the group member (only for the Major Project group reports and presentations). This evaluation will indicate the percentage of contribution of group members to the group's over-all performance. An evaluation must accompany each written research project. Use the following format:

Tutorial Instructor _____

Tutorial Group No _____ Date: _____

Group Project Name: _____ Mark _____

Each student should give each group member (including themselves) a participation mark out of 100%. Individual marks are calculated by multiplying the paper grade by the percentage awarded by peers. For example, if Joe Black was awarded 90% for his contribution to the research project and his group received 36 out of 40 points for the project, Joe's individual mark would be 32.4%. Another student, awarded 100%, would receive 36 points.

Students can give each of the group members 100%. If this is done, each student receives the mark that was awarded to the total project (in the above example, 36 points). No student should receive 0% unless the student really did nothing to contribute to the completion of the project (for example, did not go to meetings, did not complete assigned tasks, and did not contribute to the conceptualisation of the project).

Student Name	% Participation	Individual Mark	Signature

In completing this form you should take into account:

1. Willingness of the individual to carry out jobs assigned
2. Ability of the individual to meet deadlines
3. Co-operation with other team members
4. Quality of the individual's work

APPENDIX 2

Team Agreement/Group Project Formation

In order to encourage commitment on the part of all group members, each team member will sign this Team Agreement which defines how the group will operate during the conduct of the Group Project. Each member of the group is to sign below to indicate that they will abide by the conditions of the agreement as set out below.
