MACQUARIE UNIVERSITY
FACULTY OF BUSINESS AND ECONOMICS
UNIT GUIDE

Year and Semester: Semester 1, 2011
Unit convenor: Marc Lombard
Credit points: 3

Students in this unit should read this unit guide carefully at the start of semester. It contains important information about the unit. If anything in it is unclear, please consult the unit convenor.

ABOUT THIS UNIT

The unit has a policy approach and aims at providing students with a good understanding of the policies and the economic performance of the European Union (EU) and of some of its leading members. It analyses key economic and political issues affecting the successful integration of the European Union, and examines their effects on community members. Overall, it intends to be a comprehensive and up-to-date course on the economic policies of the world’s largest regional association.

CONSULTATION TIMES

Consultation times will be announced at the beginning of the course. You are encouraged to seek help during regular consultation hours. In special circumstances, an appointment may be made outside regular consultation hours. Consultations will not be conducted by email. You may, however, phone staff during their consultation hours.

Students experiencing significant difficulties with any topic in the unit must seek assistance immediately.

CLASSES

There will be a three-hour session each teaching week, consisting of a two-hour lecture and a one-hour tutorial.

Day and Time: Tuesday, 4-7pm
Room: E7B 100
The timetable for classes can be found on the University web site at: http://www.timetables.mq.edu.au/
It is essential, for the successful completion of this unit, that students attend all lectures, as the examination/tests will focus on material discussed in the lectures and supplemented by relevant readings.

LEARNING OUTCOMES
At the completion of this unit, students should be able to:

1. have a good understanding of the European Union features and of its leading members;
2. be conversant with the major issues that have dominated the European Union integration process;
3. understand and appreciate the importance of institutional factors (historical, political, cultural) in determining economic policies;
4. critically analyse economic theory and its application to economic policies in the EU;
5. critically analyse the motives behind policy disputes in the EU;
6. able to appreciate the importance and the role played by key members in the European integration process.

GRADUATE CAPABILITIES
In addition to the discipline-based learning objectives, all academic programs at Macquarie seek to develop the capabilities the University’s graduates will need to develop to address the challenges, and to be effective, engaged participants in their world.

This unit contributes to this by developing the following graduate capabilities:

1. Discipline Specific Knowledge and Skills
2. Critical, Analytical and Integrative Thinking
3. Engaged and Ethical Local and Global citizens
4. Socially and Environmentally Active and Responsible
5. Capable of Professional and Personal Judgement and Initiative

TEACHING AND LEARNING STRATEGY
The teaching strategy in ECON396 recognises that students learn independently and assume responsibility for the learning process. Students are expected to read in advance, follow current developments and participate in class discussions. The unit is taught as follows:
Lectures - (2 hours each teaching week)

Lectures are intended to provide an overview of the major features of the European Union, including, apart from economics, historical and political aspects. The lectures will also provide students with a good understanding of major issues and policies affecting the EU integration process world.

Independent Learning - learning by doing (approximately 6 hours each teaching week and 9 hours each week during the mid-semester recess)

ECON396 relies heavily on independent learning where students read the relevant chapters, revise lecture notes, understand questions that will be regularly asked in class and extend themselves by doing additional reading.

Class Practice Tests – (1 hour each teaching week)

Students will be asked to answer unseen questions from the previous week’s lecture and reading material. This teaching strategy will enable students to regularly practise questions under ‘mock’ examination conditions. The solutions to these questions will be provided and discussed in class. This objective of this strategy is to provide each student with immediate feedback on their answers with the expectation that this will assist and deepen their understanding of the European Union.

Topics to be covered:

1. The European Union: An Overall View. Historical Background.
   The EU on the World Scene
2. The Institutions and the Politics of the European Union
3. The EU Social Policy and Socio-Economic Models. Economic Welfare
4. The Major Players: Germany, France, Britain
5. Macroeconomic Performance and Policy. The Labour Market and Unemployment
   Optimum Currency Area
7. Fiscal Policy and The Growth and Stability Pact
8. The Ageing Population. Enlargement and Immigration
9. The EU Budget. Taxation Policy
10. The Common Agricultural Policy

NOTE: The numbering of topics above is not related to the number of lecture weeks. Some topics are shorter/longer than others.

Once again, it is essential, for the successful completion of this unit, that students attend all lectures, as the examination/tests will focus on material discussed in the lectures and supplemented by relevant readings

**ATTENDANCE OF CLASS TESTS AND FINAL EXAMINATION**

It is essential that students **attend all classes**, as the examination/tests will focus on material discussed in the lectures and supplemented with the relevant readings.
Absence from class tests will result in a mark of zero, unless a student’s absence is supported by acceptable documented evidence. In this case, the final exam mark will be converted to a higher percentage of the total marks.

- **Examinations**

  A final examination is included as an assessment task for this unit to provide assurance that:
  
  i) the product belongs to the student and  
  ii) the student has attained the knowledge and skills tested in the exam.

  A two-hour final examination for this unit will be held during the University Examination period.

  The University Examination period in First Half Year 2011 is from the 14th November to the 5th of December.

  You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations.  

  The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. The University’s policy on special consideration process is available at  

  If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. (Individual Faculties may wish to signal when the Faculties’ Supplementary Exams are normally scheduled.)

  The Macquarie university examination policy details the principles and conduct of examinations at the University. The policy is available at:  

**ACADEMIC HONESTY**

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim  
- all academic collaborations are acknowledged  
- academic work is not falsified in any way
when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at http://www.mq.edu.au/policy/docs/academic_honesty/policy.html

**GRADES**

Macquarie University uses the following grades in coursework units of study:

- HD - High Distinction
- D - Distinction
- CR - Credit
- P - Pass
- F - Fail

Grade descriptors and other information concerning grading are contained in the Macquarie University Grading Policy which is available at: http://www.mq.edu.au/policy/docs/grading/policy.html

**GRADING APPEALS AND FINAL EXAMINATION SCRIPT VIEWING**

If, at the conclusion of the unit, you have performed below expectations, and are considering lodging an appeal of grade and/or viewing your final exam script please refer to the following website which provides information about these processes and the cut off dates in the first instance. Please read the instructions provided concerning what constitutes a valid grounds for appeal before appealing your grade.

**SPECIAL CONSIDERATION**

The University is committed to equity and fairness in all aspects of its learning and teaching. In stating this commitment, the University recognises that there may be circumstances where a student is prevented by unavoidable disruption from performing in accordance with their ability. A special consideration policy exists to support students who experience serious and unavoidable disruption such that they do not reach their usual demonstrated performance level. The policy is available at: http://www.mq.edu.au/policy/docs/special_consideration/procedure.html

**STUDENT SUPPORT SERVICES**

Macquarie University provides a range of Academic Student Support Services. Details of these services can be accessed at http://www.student.mq.edu.au.

Faculty specific support: BESS, E4B Consultation Room.
**IT CONDITIONS OF USE**

Access to all student computing facilities within the Faculty of Business and Economics is restricted to authorised coursework for approved units. Student ID cards must be displayed in the locations provided at all times.

Students are expected to act responsibly when utilising University IT facilities. The following regulations apply to the use of computing facilities and online services:

- Accessing inappropriate web sites or downloading inappropriate material is not permitted. Material that is not related to coursework for approved unit is deemed inappropriate.
- Downloading copyright material without permission from the copyright owner is illegal, and strictly prohibited. Students detected undertaking such activities will face disciplinary action, which may result in criminal proceedings.

Non-compliance with these conditions may result in disciplinary action without further notice.

Students must use their Macquarie University email addresses to communicate with staff as it is University policy that the University issued email account is used for official University communication.
