ECON 847: INTERNATIONAL TRADE

Students in this unit should read this outline carefully at the start of the semester. It contains important information about the unit. If anything is unclear, please consult the unit convenor.

UNIT DESCRIPTION

This unit examines international trade both in theory and practice. It first reviews the theories related to inter and intra industry trade determination and the empirical evidence supporting them. It then examines trade policies, covering a wide range of topics, illustrated by up-to-date case studies.

The unit has a policy approach and aims at also providing students with a good understanding of major trade issues around the world and the effects of globalisation on trade. It focuses on current applications of theoretical principles.

ECON847, a Department of Economics offering, is also a core unit in the Master of International Business (MIB) programme

Credit points: 4

LEARNING OUTCOMES

At the completion of this unit, students should be conversant with major trade theories and with the current major issues concerning world trade. They should be made more aware of the world at large, the importance and the role of key players in the globalisation process, and the impact trade issues have on all countries.

This unit also encourages critical analysis, by comparing conflicting policies and examining motives behind trade disputes.

TEACHING STAFF AND CONTACT DETAILS

Weeks 1- 6: Joseph Macri,

Weeks 7- 12: Pundarik Mukhopadhaya
    Room: E4A-413,
    Phone: 9850 6476
    E-mail: pundarik@efs.mq.edu.au

Consultation times will be announced at the beginning of the course.
LECTURE TIME AND LOCATION:

There will be one three-hour session each week, on Monday, 1-4pm, in Room E7B-264. It is essential that students attend all sessions, as the examination/tests will focus on material discussed in the lectures.

ASSESSMENT

The assessment will consist of:

- **Class tests** worth 40% of the marks. Class tests 1 and 2 will be held in the first hour of lectures in Week 6 and Week 10, respectively - unless stated otherwise.

- **A final examination** (2 hours), covering the whole course, worth 60% of the marks. Absence from class tests will result in a mark of zero, unless absence is supported by acceptable documented evidence. In this case, the final exam mark will be converted to a higher percentage of the total marks.

NOTE:
1) It is the policy of the Economics Department that students must pass the final examination in order to successfully complete a unit.

2) It is also Macquarie University policy not to set early examinations for individual or group of students. All students are expected to ensure that they are available until the end of the teaching semester, that is the final day of the official examination period.

GRADES

The following range of standardised numerical grades applies as follows:

- HD = High Distinction 85-100
- D = Distinction 75-84
- Cr = Credit 65-74
- P = Pass 50-64
- PC = Conceded Pass 45-49
- F = Fail 0-44

Raw marks are given on each assessment task. The scaled marks are then derived from raw marks. The student’s grade of achievement in a unit is based on an assessment of all relevant work in the unit including performance at examinations.
