UNIT OUTLINE

1. UNIT DESCRIPTION

This is one of the two 200-level Econometrics units currently offered in the School. The unit is designed for the students who want to major in Applied Econometrics in the third year and those who desire to extend their knowledge of Econometrics or to learn how to apply their statistical knowledge to the analysis of economic or financial data without the intention of majoring in Applied Econometrics. The course will provide you with the basic statistical and econometric tools needed to understand and criticise empirical work in finance and to enable you to carry out your own empirical research in the future. The mathematical knowledge necessary for this course (a priori) beyond arithmetic and basic algebra is the concepts of differentiation, functions, and summation operator. The topics included are listed below.

During the course students will be required to use Excel, Matlab and Shazam, an econometrics computer software, in solving tutorial questions and in doing the assignment. Although the computing itself is not examinable, the ability to understand and interpret its output is. Pre-knowledge of this software is not required. Instruction in the use of Shazam will be given in lectures as required.

2. PREREQUISITES

ECON233 has the following prerequisites:

ECON232
or
3 credit points from units in the range STAT270 - STAT273 together with ECON110 or ECON111.

3. TEXT AND REFERENCE BOOKS

Recommended texts for the unit are

Brooks, Chris
Introductory Econometrics for Finance
Cambridge University Press

and/or

Watsham, Terry J. and Parramore, Keith
Quantitative Methods in Finance
4. **LECTURE TOPICS**

**Week 1:** Introduction to options, Risk-neutral valuation

**Week 2:** Lattice methods

**Week 3:** Lattice methods

**Week 4:** Monte Carlo methods

**Weeks 5 and 6: Inference in Multiple Regression Models**

(Brooks, chapters 1-4)

(Gujarati, chapters 1-8, 10-13)

(Watsham & Parramore, chapters 5 and 6)

Application: The Capital Asset Pricing model

**Week 7:** ARIMA Models

(Brooks, chapter 5)

(Gujarati, chapters 21, 22)

(Watsham & Parramore, chapter 7)

Applications: Stylised facts of financial returns.

**Week 8:** Class Test and ARIMA Models

(Brooks, chapter 5)

(Gujarati, chapters 22)

(Watsham & Parramore, chapter 7)
Weeks 9 and 10: Trends and Unit Roots, Tests of the Random Walk Hypothesis and Cointegration
(Brooks, chapter 7)
(Gujarati, chapters 21, 22)
(Watsham & Parramore, chapter 7)

Weeks 11, 12 and 13: Volatility and Applications of ARCH and GARCH models in Forex and Stock returns
(Brooks, chapter 8)
(Gujarati, chapter 12)
Applications: Volatility tests for efficiency and bubbles in financial markets.

5. **ASSESSMENT**

The format for assessment is as follows:

<table>
<thead>
<tr>
<th>Assessment Type</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class Test</td>
<td>15%</td>
</tr>
<tr>
<td>Assignment</td>
<td>15%</td>
</tr>
<tr>
<td>Tutorials</td>
<td>10%</td>
</tr>
<tr>
<td>Final Examination</td>
<td>60%</td>
</tr>
</tbody>
</table>

**Class Test**

There will be a class test in **Week 8 (Tuesday October 4)**. It will be of one hour duration to be held from 9.05am to 9.55am on the material covered in Weeks 1 - 7. Calculators are needed.

**Assignment**

The Assignment is due in **Week 10, Tuesday October 18**, by 1 pm in the **ECON233 box provided in ERIC**.

**Tutorials**

Tutorials 3, 6 and 7 will be marked. Due dates will be announced in lectures.

**Final Examination**

This will cover all of the material discussed in the course and will be of three-hour (plus 10 minute-reading time) duration. The schedule for this examination will be determined by the University examination section, and thus it is individual student’s responsibility to find the time and venue for the examination when the information becomes available.

**To pass the course you need to pass the final examination.**
6. CLASSES

Students are expected to attend a two-hour lecture each week. Tutorials will be held on the following weeks and days:

<table>
<thead>
<tr>
<th></th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>August 16</td>
</tr>
<tr>
<td>5</td>
<td>August 30</td>
</tr>
<tr>
<td>6</td>
<td>September 6</td>
</tr>
<tr>
<td>7</td>
<td>September 13</td>
</tr>
<tr>
<td>8</td>
<td>October 4</td>
</tr>
<tr>
<td>9</td>
<td>October 11</td>
</tr>
</tbody>
</table>

Assignment due in Week 10, Tuesday October 18

<table>
<thead>
<tr>
<th></th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>11</td>
<td>October 25</td>
</tr>
<tr>
<td>12</td>
<td>November 1</td>
</tr>
</tbody>
</table>

Tutorials and classes will be held in room E5A-119. Tutorials will not necessarily be held from 11am to 12 noon, rather it will be left to the discretion of the lecturer. On weeks where no tutorial has been scheduled lectures will be held from 9 to 11am.

*Special Examinations*: Students are entitled to apply for a special examination if unavoidable disruption has prevented them from attending an examination or significantly affected performance in the examination. However, application with supporting evidence does not automatically guarantee a permission to sit for a special examination. Students are recommended to carefully read the Bachelor Degree Rule 8 in the Calendar.

7. WEB PAGE

The ECON233 web page is located on WebCT: http://online.mq.edu.au/
On this page you will find links to the assignments, the tutes, the data sets and a bulletin board.

LECTURERS

Roselyne Joyeux (Weeks 5-13)
Office: C5C-390
Phone: 9850 8487

Chris Heaton (Weeks 1-4)
Office: C5C-305
Phone: 9850-9921

Consultation Hours: to be announced after the lecturers’ time schedules are confirmed.
