Our Master of International Business, Master of Commerce, Master of Economics and Master of Accounting (Professional) students are highly motivated and eager to gain work experience. They want to bring their academic knowledge, enthusiasm and fresh perspectives to the workplace to further develop their skills.

**WHY YOU SHOULD CONSIDER HIRING OUR INTERNS**

**Access fresh and motivated new talent**
- Work with high performing students with a ‘can do’ attitude. They are keen to put their knowledge and skills into practice.
- Fill in the gap. Utilise a short term talent source for under resourced projects.
- Meet your company needs. Some of our students already have extensive work experience and/or strong specialised expertise.
- Keep on top of the latest trends, issues and technologies. Develop fresh ideas and new perspectives with our students.
- Shape the future of our workforce. Change the way companies perform and share your vision with the next generation.

**Support and assistance**
- We pre-select students for you to ensure they fit your needs and have the skills to complete your projects.
- We mentor and assess students to enhance their contribution and their ability to develop themselves during the internship.

**WHAT DOES THE PROGRAM INVOLVE**

- Internships are 150 hours in length.
- Timing
  - **Semester 1**: February-June (Submit your interest by mid January)
  - **Semester 2**: August - November (Submit your interest by late June)
- Internships are generally unpaid and insurance is provided by Macquarie University.
- The student must complete a set of tasks or projects meaningful enough to justify them receiving academic credit.
- Your organisation is required to appoint a supervisor, who is responsible for the student’s day-to-day activities and who is willing to support their professional development.

‘Macquarie University has placed some excellent interns with Qantas. Their adaptability, willingness to learn, passion and customer focused approach typifies the type of graduates we are looking to bring on board. If this is the future of talent and capability, then the future looks bright’

**Ming Chang, Senior Adviser**
Qantas Careers
