Macquarie achieves 5 QS Stars

The international QS rating system identifies, evaluates and recognises universities for their diverse and specialist strengths.

“A typical five star university is generally world class in a broad range of areas, enjoys a high reputation and has cutting-edge facilities and internationally renowned research and teaching faculty.” QS 2013

We achieved top scores for institutional research collaborations, prolific academic experts, academic reputation, internationalisation, student satisfaction and graduate employment

One of only 5 Australian universities to receive 5 stars in all categories

5 stars across all categories
teaching, employability, research, internationalisation, facilities, innovation, access and specialist subjects

The rating places Macquarie alongside renowned international institutions

The rating, attained only by truly world-class institutions, reinforces our academic, research and international standing

TRANSFORM YOURSELF WITH MACQUARIE

Macquarie is more than your traditional university.

When you choose Macquarie, you are not only choosing a world-class educational experience, you will also gain access to our first-class facilities, friendly staff and students, and park-like campus.

You will learn from the best and apply your knowledge to real-life situations through PACE, our international exchange program and many other opportunities we provide our students.

Macquarie does more than offer you an exceptional education with outstanding career prospects; Macquarie offers you the opportunity to transform yourself. Through global engagement, real-world experiences and our unique curriculum, Macquarie will help you realise your aspirations, whatever they might be.

So what are you waiting for?
At a glance
MACQUARIE FACTS AND FIGURES

90 per cent
of our graduates under the age of 25 are employed in their first full-time job within six months of completing their study.

2500
students in PACE (Professional and Community Engagement) since its inception.

5 QS Stars
in teaching, employability, research, internationalisation, facilities, innovation, access and specialist subjects.

35
active industry partnerships in the Faculty of Business and Economics alone.

50
countries and over 150 well-regarded partner universities for exchange.

Australian Hearing Hub
brings together some of the country’s best researchers and service providers to advance research, education and innovation into hearing and language disorders.

10,000
degrees awarded annually.

150,000
alumni in more than 140 countries.

15
kilometres from the Sydney CBD.

$1 billion
invested in infrastructure and facilities in recent years.

the only Australian university with a licence to dig in Egypt’s Nile Valley.

80
undergraduate majors.

Over 38,000
students.

$2 Million
awarded in scholarships each year.

Macquarie University Hospital
Australia’s most technologically advanced private hospital on a university campus.
We’ve all heard that employers want graduates with experience, but how do you get that experience until someone employs you?

This is where Macquarie’s unique PACE (Professional and Community Engagement) program comes in: it gives you practical experience while you’re still a student so you can get that all-important headstart on your career.

Through local and international experiences, PACE offers you invaluable work and life skills that set you apart from other graduates; skills that equip you for the real world and make you more attractive to employers. Who doesn’t want that?

You could be interning at international corporations like Microsoft or GlaxoSmithKline, working with Indigenous tourism operators in the Northern Territory, building houses for homeless people in Peru, working with local councils to develop community engagement strategies or assisting with a land rights claim in the jungles of Borneo. This is just a snapshot though; our range of PACE options are extensive.

But PACE is about more than preparing you for work; PACE helps prepare you for life by showing you how you can apply the skills you learn in the classroom to real-life situations, and by helping you develop maturity, wisdom and a deeper understanding of the world – and your place in it.

Get real-world experience before you graduate
MACQUARIE’S PACE PROGRAM

Macquarie’s 3Ps

Macquarie is the only Australian university to offer real-world experiences that are fully integrated into the curriculum.

Known as the ‘3Ps’, People, Planet and PACE units underpin our degrees and have been developed in response to the need from employers for well-rounded employees with both specialised skills and breadth of understanding who will fit comfortably into the workplace and the broader society.

To ensure that you study a diversity of units, you will complete a People and a Planet unit as part of your degree. You will also have the opportunity to undertake a PACE unit.

People units offer a range of socially focused subjects that help you explore everything from dance and linguistics to philosophy, history and environmental economics. Planet units relate to the natural world and include units on sustainability, law, bioethics, introductory physics, environmental accounting and astronomy, among others.
“Macquarie was my first choice when leaving school. Several of my friends and family had studied at Macquarie and each of them strongly recommended I do so. Macquarie has great teachers, facilities and social activities, and the travel options make it so easy to get to.

The highlight of my time at Macquarie was an internship I undertook at Microsoft, which has led to a full-time position. The internship was facilitated through the PACE program, which is unique to Macquarie. While interning, I also undertook two PACE units. Both were really beneficial as the intern program itself was very intense and engaging, and the units helped me reflect on my experience.

The practical nature of studying at Macquarie helped me greatly in developing initiative and communication skills, which are essential in succeeding in my graduate role at Microsoft. Through PACE I was able to take what I was learning in my degree and test my skills and knowledge in a real-world context.”

Ronan Chander
Bachelor of Commerce
Audience marketing manager
Microsoft Australia

“The PACE program is an important part of our recruitment strategy. What has impressed me, and why we continue to support the program, is because the students come in so ready to perform corporate tasks. We think about hiring PACE program participants as they have a track record that makes them incredibly attractive to us.”

Steven Miller
Business planning manager
Microsoft Australia
Our areas of study
DISCOVER A WORLD OF POSSIBILITIES

Faculty of Arts

Media, creative arts and communications

At Macquarie our programs are designed to keep you up-to-date with new and emerging media and industry practices while ensuring you have a strong understanding of traditional mass communication. Home to Australia’s first media department, you will learn from award-winning academics and experts and have access to industry-standard facilities – the best of any university in the country. Our multi-million dollar media hub includes professional screen, radio and dance studios, state-of-the-art digital workstations for all production areas, a specially equipped screening theatre and the latest in digital production and editing tools. So immerse yourself in writing, dance, music, screen production, management, marketing, cultural studies, communication, and interactive technology and games and set yourself up for a career in the new media landscape.

Society, history and languages

Expand your horizons and see the bigger picture with our world-class degrees in society, history and languages. Our ancient history programs are world renowned, and we are the only university in Australia with a licence to dig in Egypt’s Nile Valley and to offer a full study of Egyptology. We have one of the top 100 language departments in the world – offering the widest range of European languages in New South Wales and comprehensive options in Asian languages – giving you the skills to broaden your career opportunities from interpreting to international trade. So, whether it’s politics, history (modern or ancient), philosophy, sociology, English, international studies, anthropology, Indigenous studies or languages, your studies will take you into a world far beyond academia.

Security and intelligence

The security environment, both nationally and internationally, has been transformed over the past decade, leading to demand for highly skilled graduates in this field around the world. Our Criminology major and the new Bachelor of Security Studies will give you the tools and knowledge for a career in the changing policing, intelligence and security sector. Taught by senior academics and leading industry professionals, our innovative programs will also give you opportunities to build professional contacts with experts working both in Australia and internationally.

Macquarie Law School

Law at Macquarie has been rated in the top 8 in Australia by QS World University Rankings. As pioneers of interdisciplinary law study in Australia, Macquarie prepares you to look beyond law as a function of rules and procedures. You will be challenged to think around problems and provide more innovative solutions – skills highly valued by employers. With the option to combine your law degree with other areas of study, you can open the way to a variety of careers including legal practice, private industry, government, education and community services.
Faculty of Business and Economics

Accounting and corporate governance

Accounting is the language of business and a vital tool for organisations to analyse reports and solve business problems. Accountants, auditors and risk managers are in demand worldwide, finding employment in all areas of commerce, not-for-profit and government. Macquarie’s expertise in this field ranges from financial and management reporting to risk, corporate governance, ethics, and information systems and development. Our accredited degrees give you depth and breadth of knowledge, and the skills to relate this knowledge to complex situations in the real world.

Applied finance and actuarial studies

The finance sector is dynamic and complex, and highly skilled graduates are in demand worldwide. Finance at Macquarie investigates three core areas: corporate finance, investments and financial markets, and their effect on the flow of funds within the economy and on the control of risk. Macquarie has a long and proud history in teaching actuarial studies – in fact we are recognised by the Actuaries Institute as a Centre of Excellence in actuarial education. Our actuarial studies program is the longest running of its kind in Australia and our graduates are highly sought after.

Business, economics and commerce

A business, economics or commerce degree from Macquarie counts for more in the business world. As a graduate in this field you will achieve a higher than average starting salary and be sought after by leading businesses across Australia and around the world. That’s because Macquarie equips you with the skills that companies want. Our interdisciplinary approach gives you the chance to combine degrees, and get more hands-on experience through internships with some of Australia’s best companies. If you want a business, economics or commerce degree that means more in the business world, this is it.

Marketing and management

Marketing and management are key to success in the dynamic world of business. Through the creation and communication of value, marketing focuses on how to best satisfy the wants and needs of customers. Management ensures that all functions of business such as human resources, administration, international business and marketing are all aligned with the organisation’s overall strategies. Marketing and management at Macquarie are unique as they not only explore the theory behind modern marketing and management principles, they also allow you to gain practical skills in media-related technologies that can be applied in a marketing or management context.
Our areas of study
DISCOVER A WORLD OF POSSIBILITIES

Faculty of Human Sciences

Education and teaching

Educators shape the future. They change destinies, enrich lives and empower individuals to realise their full intellectual and social potential. Our University-wide teacher education program gives you a broad world view, an understanding of your chosen area of study within a wider social context, and qualifications to enhance your employment opportunities in primary and secondary teaching, and special education. Macquarie is a leader in early childhood teaching and research. Our teaching academics are experts in the field, frequently providing specialist opinions and media commentary, while our Mia Mia Child and Family Study Centre – a world-renowned long day care centre – offers a unique range of learning and research opportunities for students.

Health professions

Macquarie is the place to be for health. We are investing heavily in your future through the Macquarie University Hospital, the Australian School of Advanced Medicine and the Australian Hearing Hub. Our degrees offer you employment opportunities in health and community work, health policy and promotion, health education research and management. They may also give you the academic background for postgraduate study in a number of areas such as audiology, physiotherapy, speech pathology and public health. As a Macquarie graduate you will possess skills that will allow you to help drive innovation and improve the lives of people with various health conditions.

Linguistics, speech and hearing

As a student at Macquarie you'll study on a campus that is home to the new Australian Hearing Hub, which brings together some of the country's best researchers and service providers to advance research, education and innovation into understanding human speech, hearing and language. The Australian Hearing Hub offers you the unique opportunity to work alongside experts in the industry providing an unrivalled learning experience. It also enables graduates and researchers to drive innovation and improve the lives of people with speech, hearing and language disorders.

Psychology

When you study psychology at Macquarie you will do so alongside some of the best. We offer a broad, holistic, interdisciplinary approach to learning and thinking – an approach that better prepares you for life and your career. We're home to first-class minds as well as first-class facilities which include a state-of-the-art simulation centre, eight-camera motion capture laboratory, purpose-built psychology clinics and clinical skills training centre, perception lab and neuropharmacology labs. Our research in psychology and cognitive sciences is helping thousands living with autism, dementia, dyslexia and schizophrenia.
Earth and environmental science

Environmental resource management has become one of the issues of our time and demand for top-quality environmental scientists is high. Our commitment to first-class interdisciplinary research has placed us at the forefront of Earth and environmental science study, both in Australia and internationally. We are home to many world-renowned researchers and academics so at Macquarie you study with people who are using their knowledge to make an impact on today’s environmental issues. Our degrees give you the skills to make practical, positive change in areas like conservation, resource management, sustainability, development and planning.

Engineering

Our engineering programs combine a strong research-based curriculum with practical skills acquisition and industry exposure. Our programs offer a flexible first year, providing you with a solid background in electronic, mechanical and software engineering before you choose a speciality according to your interests and career goals. We have working partnerships with many of the global high-tech companies neighbouring our campus, offering you access to valuable internships and work placements.

Information technology

The information technology field is dynamic and demand for highly skilled IT graduates has never been greater. Our degrees are developed in consultation with industry and satisfy the standard for the professional level of the Australian Computer Society. We offer a flexible IT degree that gives you the opportunity to specialise in fields such business information systems, software technology solutions, and web design and development.

Medical sciences

Macquarie’s multi-million dollar investment in health on campus, which integrates education, research and clinical applications, has reinforced our position as a leader in health sciences. Our facilities for medical sciences study are considered some of the best on offer at a university in the Asia-Pacific region. A medical sciences degree from Macquarie can set you up for a range of careers in health or allied health fields, or provide a springboard into many exciting areas of medical research. Our resources and innovative approach are attracting some of the best students, researchers and health companies to Macquarie.

Science

Macquarie is renowned for our expertise in science fields as diverse as astronomy, biology, chemistry, microbiology and physics. Our interdisciplinary approach is a hallmark of all Macquarie science graduates and is highly valued by employers. It’s one of the reasons we have strong ties to industry. Our science staff are recognised for their excellence in teaching and many are known internationally for their research, which ensures you are taught the most up-to-date scientific knowledge.

Tread your own path
STUDY THE WAY YOU WANT

One of the key differences about Macquarie is that we don’t lock you in. We want you to get the most out of your studies so we support and encourage you to fulfil your potential your way.

Internal transfer
Macquarie has an excellent reputation for the ease with which you can internally transfer between degrees as your interests develop. So if you start studying in one degree and find that it’s not the right match for you, we can provide you with advice about how you can best structure your studies to suit your capabilities, interests and aspirations.

Learn more about internal transfer
mq.edu.au/internal-transfer

Diverse unit choice
We also give you the opportunity to take units from across the University. So while you might be studying an arts degree, you can take units in criminology, finance or science, for example. This gives you a really broad perspective and not only allows you to study all sorts of areas that interest you, but also makes you more attractive to employers.

Investigate your choices

Flexible learning options
We also recognise that students lead very busy lifestyles, so offering flexible learning options is another way we provide you with a high-quality learning experience. We make it easy for you to study part-time, by distance, or in the evening. We also make your lectures available online which means you can listen to recordings in your own time to review content or catch a lecture that you couldn't attend face-to-face.

Study the way you want
mq.edu.au/flexible-study-options

Pathways
We offer a number of pathways to study at Macquarie if you don’t happen to meet the academic requirements for entry. Your ATAR might not be high enough for the degree you want to study, you might be an elite athlete or artistic performer, or maybe you’ve been disadvantaged during your high school studies. You might also be transferring from another institution, or maybe you’re a mature-aged student. Whoever you are, we have a pathway suited to your individual needs.

Find another way in
futurestudent.mq.edu.au/entrypathways

Fast-track your degree
Session 3 is an opportunity to accelerate your studies by taking one or two units during summer. It is intensive, running for six weeks from early December with five weeks of teaching and one week of exams. Units offered in Session 3 have identical learning outcomes, means of assessment and prerequisite structures as their equivalents offered at other times of the academic year.

Find out how to fast-track your degree

mq.edu.au/campus-life

12 Services available to you include advocacy, career and employment, counselling, disability, medical and welfare
campuslife.mq.edu.au/campuswellbeing

13 As a graduate you will become part of the global Macquarie alumni community
mq.edu.au/alumni
Globally focused learning
As a Macquarie student, your opportunities to learn about the big issues, the ones that are important not just in Australia but across the globe, are limitless. We believe that to be the best citizen you can be, an exceptional knowledge of global issues is vital. So no matter what degree you undertake, you will be able to immerse yourself in world issues that matter to you.
International exchange
The best way to truly immerse yourself in global issues is to experience them first hand. So we make it a priority to support your globe-trekking ambitions by having one of the most generous travel grant schemes of any uni in Australia. Our exchange program is also one of the best – we partner with over 150 universities in more than 50 countries – so you could be undertaking some of your degree in the US, UK, Asia, Europe, South America, Canada, Scandinavia or the South Pacific. You can study for just a couple of weeks, a whole session or even a year. The choice is yours.

Add a global perspective to your degree

Global Leadership Program
Stand up for global issues and stand out from the pack with Macquarie’s Global Leadership Program (GLP). An extracurricular program that can be undertaken alongside any degree at Macquarie, the GLP provides you with outstanding opportunities to enhance your study experience by developing important leadership and cross-cultural skills.

Get a competitive edge

* Macquarie is also a member of the IESP and AEN networks.
Everyone needs a helping hand at some point in their life, right? No matter who you are, where you are from, and how you did at school, we have a couple of options in the form of bonus points and scholarships that we think you will really like.

**Bonus points**
If you're completing the HSC or an International Baccalaureate and you include Macquarie in your preferences, you may be eligible to receive bonus points that can be added to your ATAR. Our bonus points schemes include Academic Advantage, Elite Athletes and Artistic Performers Scheme, Rural Bonus Scheme and the Lighthouse Scheme – Macquarie University’s Educational Access Scheme.

Find out how many points you can receive
mq.edu.au/bonus-points

**Scholarships**
Each year Macquarie University awards over $2 million in scholarships. That’s a lot of cash, and you may find that you’re eligible. Most of our scholarships have a strong emphasis on social inclusion and are awarded on the basis of financial need or other hardship. Others recognise factors such as academic excellence, leadership or voluntary experiences, or sporting achievement. We offer a wide range of scholarships for students from all backgrounds so be sure to check out what’s on offer.

See a full list of scholarships and find one for you
mq.edu.au/scholarships

**Merit Scholars Program**
As a merit scholar you can gain exclusive access to personal, professional and academic opportunities. Merit scholars participate in a formal mentoring program, workshops and networking events, and have access to amazing scholarships to undertake research or attend international conferences or internships. Reserved for students with an ATAR of 98.5 or above, or those who achieve a GPA of 4.0 in their university studies, the program gives you experiences and skills that will benefit you long after graduation.

Get exclusive access
mq.edu.au/merit-scholars

**Guaranteed entry**
Get a head start with Macquarie’s Guaranteed Entry program for students who meet the published ATAR. Guaranteed entry offers are made in the Main Round. Visit the web for more information.

**Guarantee your place**
mq.edu.au/guaranteed-entry

**Early offer**
Receive your offer before the UAC Main Round via Macquarie’s special entry schemes and UAC’s Schools Recommendation Scheme.

**Get your future sorted**

Changing lives

A SCHOLARSHIP HAS ALLOWED NIDALA TO PURSUE HER DREAMS

“I come from a family that doesn’t have all that much financial comfort. However my family is one of the wealthiest I know. They do not find drive in material possession, but rather in pursuing knowledge.

I grew up with the idea that I could change the world, and all I needed to do was to give myself the tools to do so. Those tools are education, hard work – but also opportunity.

Though my hometown of Broome offers me the support and encouragement that any home would, it unfortunately has very little opportunities for young people with great ambitions.

So very early I was pushed to leave home. I moved overseas to study in an international high school, and after returning home, was granted a scholarship that allowed me to move across the country and attend Macquarie to pursue my tertiary education.

I have four younger siblings and a countless number of younger cousins, nieces and nephews. I know not all of them will be blessed with the opportunities I have been given. However I hope my story helps to depict a positive future for them, a future where they too believe they can change the world, a future I would be proud to see them in.

To me, education and opportunity go hand-in-hand. When someone is given the opportunity to educate themselves, they are given the opportunity to better themselves, and in turn to give opportunities to others. So when given the opportunity, don’t think twice, take it.”

Rural and Regional Scholarship
Getting here is easy
THE BEST BIT? SO MANY OPTIONS TO CHOOSE FROM

Travel by car
Parking facilities are available on campus and an annual parking sticker entitles you to unlimited use of the parking facilities. Otherwise, you can pay casual parking rates each time you enter.

A train station at our door
The Macquarie University train station is located on the North Shore and Northern Line, with 158 services daily. Visit sydneytrains.info for more information.

Hop on a bus
State and private buses travel to Macquarie from many areas of Sydney. Visit sydneybuses.info for more information.

Ride to Macquarie
Several roads with dedicated bike lanes allow you to enjoy a hassle-free ride to campus. And when you arrive you can take advantage of our free, secure and undercover BikeHubs, or one of the many bike racks located all over campus.

Do you have any questions?
If so, visit ask.mq.edu.au
Open Day 2014

- Talk to current students and teachers
- Discover the campus and our outstanding facilities
- Attend informative lectures
