11. SEMINARS

There will be two-hour lectures each week and eight seminar meetings held for each group during the semester. Attendance at seminars, preparation for seminars and participation in class discussion is compulsory. To re-emphasise, attendance at seminars and contribution to seminar discussion are partial requirements for completing this course satisfactorily. At each seminar meeting a class roll will be taken. For each seminar missed, you will lose 1% of the TOTAL assessment marks.

Each student will be allocated to one group in which the group will be required to present their allocated topic to the tutorial. In addition, each group will be required to submit a formal report on the seminar in which they are presenting. This report is a GROUP submission and therefore students in each seminar group should meet several times before the seminar presentation to discuss the topic and to make arrangements for the seminar presentation as well as the submission of the report. These arrangements should include the division of the topic so that each student can play a role in the joint presentation.

The submission of the seminar report on the day of your allocated seminar is compulsory and each student must participate in a verbal presentation on their allocated topic at the appropriate seminar. Failure to fulfill any one of these conditions will mean that course requirements will not have been met and will involve automatic failure in the unit. The non-attendance at a seminar meeting when an individual is due to present a paper is clearly regarded as unacceptable. If you do have genuine problems of misadventure which affect the presentation of your seminar please let us know before the relevant seminar meeting is due to be held. The slipping under staff members doors of notes of explanation or merely a seminar paper when non-attendance has taken place is not acceptable. Also note that turning up late after
the seminar has started, on the day you are due to present your seminar paper is also clearly not acceptable.

In the evaluation of a student’s seminar presentation/report the following factors will be considered:
1. The standard displayed in English expression and sentence construction and the level attained in the written articulation of ideas.
2. The ability to exhibit critical analysis in the subject area.
3. The ability to develop ideas in a logical or sequential fashion.
4. Presentation Style

Seminar topics: TBA

12. Essay/Research Project

A case study essay will be announced during the first lecture

This part of your assessment involves you undertaking a comprehensive research project. This project will be a **maximum of 4000 words** and **DUE ON TUESDAY THE 15th OF MAY. NO LATE ASSIGNMENTS WILL BE ACCEPTED UNLESS YOU HAVE HAD SERIOUS MISADVENTURE. THEREFORE, ANY LATE ASSIGNMENTS WILL INCUR A PENALTY OF 2 MARKS PER-DAY.**

In the evaluation of the written work the following factors will be taken into account.

1. The standard displayed in English expression and sentence construction and the level attained in the written articulation of ideas
2. The ability to exhibit critical analysis in the subject area.
3. The ability to develop ideas in a logical or sequential fashion.

4. Plagiarism: The following statement relating to collusion and plagiarism has been prepared by the University.

“The integrity of learning and scholarship depends on a code of conduct governing good practice and acceptable academic behaviour. One of the most important elements of good practice involves acknowledging carefully the people whose ideas we have used, borrowed, or developed. All students and scholars are bound by these rules because all scholarly work depends in one way or another on the work of others.
Therefore, there is nothing wrong in using the work of others as a basis for your own work, nor is it evidence of inadequacy on your part, provided you do not attempt to pass off someone else's work as your own.

To maintain good academic practice, so that you may be given credit for your own efforts, and so that your own contribution can be properly appreciated and evaluated, you should acknowledge your sources and you should ALWAYS:

(i)  State clearly in the appropriate form where you found the material on which you have based your work.

(ii) Acknowledge the people whose concepts, experiments, or results you have extracted, developed, or summarised, even if you put these ideas into your own words.

(iii) Avoid excessive copying of passages by another author, even where the source is acknowledged. Find another form of words to show that you have thought about the material and understood it, but remember to state clearly where you found the ideas.

If you take and use the work of another person without clearly stating or acknowledging your source, you are falsely claiming that material as your own work and committing an act of PLAGIARISM. This is a very serious violation of good practice and an offence for which you will be penalised.

YOU WILL BE GUILTY OF PLAGIARISM if you do any of the following in an assignment, or in any piece of work which is to be assessed, without clearly acknowledging your source(s) for each quotation or piece of borrowed material:

(a) Copy out part(s) of any document or audio-visual material, including computer-based material;

(b) Use or extract someone else's concepts or experimental results or conclusions, even if you put them in your own words;

(c) Copy out or take ideas from the work of another student, even if you put the borrowed material in your own words;

(d) Submit substantially the same final version of any material as a fellow student. On occasions, you may be encouraged to prepare your work with someone else, but the final form of the assignment you hand in must be your own independent endeavour.”

The simplest way to avoid plagiarism is to be open about your sources. There is no academic demerit in this. Many of the ideas used in essays, articles and books inevitably build on the work of others, and it is only honest and courteous to acknowledge those to whom you are indebted.
