MKTG 806 – Applied Marketing Strategy

About this unit:
This subject provides students with the opportunity to apply the functional applications of marketing strategy in the broader commercial environment. Students will build on the general marketing knowledge gained in market research, consumer behaviour, marketing communications and marketing management. The subject culminates in a Group Project and Presentation on an existing commercial business.

Learning Outcomes:
The aim of the subject is to develop a commercial knowledge and skills that enable students to:

(1) Critically analyse business environments both external to the firm and within the organisation;
(2) Gain knowledge of the process by which organisations can develop a strategic initiatives and sustainable competitive advantage;
(3) Assess marketing strategies from the standpoint of growth, market share, and profitability; and within the context of the market environment; and
(4) Develop marketing investment decisions based on marketing research, information and competition.

The focus is on a customer-oriented approach to the marketing organisation, market definition, and market segmentation, as well as an entrepreneurial approach to strategic choice. Throughout the course, the emphasis is on the application and analysis process: identifying information needs, acquiring the necessary information, interpreting it and using it as the basis for business recommendations.

Available at the University Co-op Bookshop. You will need to purchase or have access to the title throughout the semester:

Workload:
This is a single semester (half-year) 4 credit point unit. The number of credit points that a unit is worth is determined by the number of hours that a student is expected to spend each week attending lectures, reading and preparing assignments. For a single semester unit, students are expected to spend 4 hours per credit point each week on work related to the unit. Students are strongly advised to prepare their study timetable accordingly. Successful performance in the exam requires knowledge and understanding of the content of the lectures and set readings.

General Course Notes

Assignment Assessment Requirements

- All assignments are to be typed in a 12-point font, with appropriate spacing and margins. As reports are being requested you may use either PORTRAIT or LANDSCAPE formats.

- Your assignments will be marked according to the following criteria:
  - Expression (spelling, syntax, grammar)
  - Description (accurate, coherent, unambiguous)
  - Argument (valid, logical, reasonable)
  - Relevance (with respect to the set topic)
  - Research (effective use of relevant literature)

- Assignments are to be submitted with the name of the subject and the assignment on the front cover. Your name(s) and SID(s) are to be clearly identified on the front cover of each assignment.

- INDIVIDUAL REPORT – late reports WILL NOT be accepted. Reports are to be submitted in person in class on the due date.

- GROUP ASSIGNMENT – the Group Assignment is to be emailed to me in a MS Word on the Monday prior to the due date with a printed bound copy submitted in class. Late assignments will not be accepted.

- Extensions of time for the submission of assignments will be granted only in special circumstances. Applications for such extension must be made in writing to Lawrence Potter, at least three (3) days before the submission date, and must include appropriate evidence to support your application. There are two possible grounds for seeking an extension (a) illness and (b) misadventure (that is, circumstances beyond the student’s control, not pressure of accumulated assignments). Late assignments will be penalised, however, this does not apply when an extension of time has been granted.

- It should be noted that under no circumstances will any late assignments be accepted for grading after examined assignments have been returned to students.

- Lost assignments: All students must keep a copy of their assignment in case the submitted copy is mislaid.

- All sources must be referenced.

- If you wish to appeal against your assignment grade, you must first contact the original marker within one week of the marked assignment being returned.
• Remember the assignment must be your own work. Plagiarism is a serious offence.

The University Examination period in the Second Half Year 2008 is from 10\textsuperscript{th} November – 28\textsuperscript{th} November 2008.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations.

http://www.timetables.mq.edu.au/exam

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. Information about unavoidable disruption and the special consideration process is available at http://www.reg.mq.edu.au/Forms/APSCon.pdf

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. (Individual Divisions may wish to signal when the Division’s Supplementaries are normally scheduled.)

You are advised that it is University policy not to set early examinations for individuals or groups of students. All students are expected to ensure that they are available until the end of the teaching semester, which is the final day of the official examination period.

**PLAGIARISM**

The University defines plagiarism in its rules: “Plagiarism involves using the work of another person and presenting it as one’s own.” Plagiarism is a serious breach of the University’s rules and carries significant penalties. You must read the University’s practices and procedures on plagiarism. These can be found in the Handbook of Undergraduate Studies or on the web at: http://www.student.mq.edu.au/plagiarism/

The policies and procedures explain what plagiarism is, how to avoid it, the procedures that will be taken in cases of suspected plagiarism, and the penalties if you are found guilty. Penalties may include a deduction of marks, failure in the unit, and/or referral to the University Discipline Committee.

**UNIVERSITY POLICY ON GRADING**

Academic Senate has a set of guidelines on the distribution of grades across the range from fail to high distinction. Your final result will include one of these grades plus a standardised numerical grade (SNG).
On occasion your raw mark for a unit (i.e., the total of your marks for each assessment item) may not be the same as the SNG which you receive. Under the Senate guidelines, results may be scaled to ensure that there is a degree of comparability across the university, so that units with the same past performances of their students should achieve similar results.

It is important that you realise that the policy does not require that a minimum number of students are to be failed in any unit. In fact it does something like the opposite, in requiring examiners to explain their actions if more than 20% of students fail in a unit.

The process of scaling does not change the order of marks among students. A student who receives a higher raw mark than another will also receive a higher final scaled mark.

**STUDENT SUPPORT SERVICES**

Macquarie University provides a range of Academic Student Support Services. Details of these services can be accessed at http://www.student.mq.edu.au.

[Individual Unit Convenors may wish to add Unit/ Division specific support e.g. ERIC Room, PAL, TEPIT Centre, ELS Student Support Officers.]
