6. Learning Outcomes and Graduate Capabilities

6.1 Course Aims

This unit aims to assist students to operate in a complex and often turbulent business-to-business context by analyzing and evaluating the drivers of success in business markets. The focus of the unit is on those factors which produce successful long-term customer-supplier relationships and the drive to achieve strategic competitive advantage. It is an applied unit and makes extensive usage of case studies and analysis of real-world situations to show students how to apply the theories, tools and techniques in specific business-to-business contexts in creative and innovative ways.

This unit defines and explains the nature of business marketing. The learning outcomes of this unit are for students to develop an ability to apply modern marketing practices to create the optimum environment for business-to-business marketing.

The unit will consider the purchasing function, organisational buyer behaviour, business marketing opportunities and strategy, developing a marketing mix in a business market, managing customer relationships, sales and sales management as well as managing the marketing program and customer retention.

Students will learn how to conduct market research aimed at providing prospective commercial customers with the outcomes they are seeking as solutions to their particular problems.

They will be able to understand the importance of corporate culture and learn to manage it within their own business and within that of their customer so they can exercise a sustainable competitive advantage in business-to-business transactions.

6.2 Learning Outcomes

The learning outcomes of this unit are to develop knowledge/skills to enable students to:

6.3 Graduate Capabilities – Critical, Analytical and Integrative Thinking

Macquarie University's stated Graduate Capabilities may be viewed as a mix of cognitive capabilities, and personal, interpersonal, and social capabilities. In addition to the abovementioned learning outcomes, the MKTG807 Business-to-Business Marketing unit has been designed to develop your skills within the specific graduate capability area of critical, analytical and integrative thinking.

We want our graduates to be capable of achieving the following:

- A. To be able to reason, question and analyse information;
- B. To be able to integrate and synthesise learning and knowledge from a range of sources and environments;
- C. To be able to critique constraints, assumptions, and limitations;
- D. To be able to think independently and systematically in relation to scholarly activity in the workplace and in the world in general;
- E. To be able to develop advanced skills in information and technology literacy.

The graduate capability concerning critical, analytical and integrative thinking will therefore be developed throughout the MKTG807 Business-to-Business Marketing unit through both the unit's content and through its assessment.

7. Teaching and Learning Strategy

7.1 Approach to learning and teaching

- The unit is taught by lecture and major assignment (individual, **not group**) engaging the topics taught in a practical real world scenario.
- What is expected from students? Read in advance; follow current developments in the market place; be able to apply the lessons of the lectures (reflected in the lecture notes) to the major assignment; respond to questions raised during lectures; demonstrate enthusiasm for the subject; challenge the lecturer's assumptions during lectures and explore opposing points of view.
- Maintain a personal Reflective Journal online on Blackboard to show that you reflect regularly upon the lessons of the unit and their practical application to your own career challenges.

You are expected to attend all lectures and to contribute to the discussions that are encouraged there. To make the best contribution, and to receive the greatest benefit from this unit, you are expected to be alert outside lectures for every-day applications of the business-to-business marketing principles discussed in lectures.

Please refer to the schedule of learning activities by teaching week. This schedule outlines the key content to be discussed in each week's lectures.

7.2 Relationship of this course to other course offerings

This subject provides an analytical overview of B-2-B marketing in the broader context of corporate and business unit strategy. It builds on the general marketing knowledge students have gained in prior marketing fundamentals courses. A quiz of 4 short essay style questions will be administered **DURING the lecture** in Week 6 of the Unit on 30th March, 2011. Students will be given one hour to complete the test.

The test will examine your knowledge of material covered in lectures 1, 2, 3, 4, 5.

Students may only sit for the test once. Failure to sit for the mid semester test will result in a zero grade. Students will only be given special consideration for non-attendance during the test under exceptional circumstances.

8.3 Final Examination (40%)

The Final Examination of students encourages them to demonstrate their comprehensive understanding of the avoidance of conflict in the business-to-business buyer-seller relationship and the profitability of a collaborative selling approach.

- Exam period commences: Monday 6 June 2011
- Exam duration 3.0 hours.
- Format of exam: essay questions
- To pass this course you must obtain a pass in the combined individual assessments, (i.e. Early Warning Test + Exam + Case Study Exercises).
- Digital/Electronic devices and Calculators, electronic language translation devices are NOT permitted in the exam
- Dictionaries are NOT permitted in the exam

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. Information about unavoidable disruption and the **special consideration process is available at** <http://www.reg.mq.edu.au/Forms/APSCon.pdf>

You are advised that it is Macquarie University policy not to set early or delayed examinations for individuals or groups of students. All students are expected to ensure that they are available until the end of the teaching semester, that is the final day of the official University examination period, and can attend the exam at the designated time and place.

8.4 Applied Case Study Group Assessment - 25%

Students are required to complete a group applied case study assignment of around 4000 (+/- 5%) words during the course. Students must choose by week 2 a company listed on the Australian Stock Exchange top 200 companies focusing on business-to-business activities.. The Applied case study project is worth a possible 25% of your total assessment.

The analysis must demonstrate an understanding of the (a) **Nature of the Industry, Market, and Buyer Behaviour** (b) **The Organization and** (c) **A Plan of Action including the potential to develop ‘blue-ocean’ strategies for that organisation.** Essentially this means that you will be asked to develop a practical business-to-business marketing plan that reflects the lessons of our text book and our lectures. An assessment guide is available to read at the end of this unit outline.

Your essay must be submitted in three stages:

STAGE 1: Week 2- Submit in the lecture a team agreement form defining the responsibilities and obligations of each team member as the group assignment progresses.

STAGE 2: Week 11 -Submit softcopy to the plagiarism detection system ‘Turnitin’ before the deadline on Wednesday, May 18, 5 pm sharp. Please see instructions below.

STAGE 3: Week 12 - Submit hardcopy to lecturer in CLASSROOM E5A 116 on Wednesday May 25, at 2pm.

Submissions received after the deadline will lead to an automatic 5 mark per day deduction out of the total possible 30 marks for the assessment piece.

You will be required to complete a confidential assessment of your own contribution as well as the contribution of other members of your group to the report and presentation. See Appendix 1

Please note that your applied essay must include the following:

- Cover sheet with student name, student ID number, tutorial/class enrolment number, tutorial day and time
- **Turnitin receipt email.** This email provides time and date proof of assignment submission to the Turnitin system
- **Copy of the Originality report from Turnitin printed out in black and white, or colour**

Any essay not containing a student cover sheet, a print out of the Turnitin Receipt email stating time/date of submission, as well as the Turnitin Originality report **will not be marked.**

- Expectations in relation to the presentation of written and/or oral work:
 - All written work to be submitted in typed format on A4 white paper, using **only one side** of the sheet, 12pt Times Roman typeface, 1.5-spaced. Assignment to be contained securely in a ring or clip binder.

The assessment tasks fulfil and evaluate the stated learning outcomes of the unit by providing students with the opportunity [via a practical 4000 word **group work** - assignment] to prove to themselves and the lecturer that they are capable of drafting a B-to-B marketing strategy that would in all likelihood be acceptable to a “real world” senior corporate executive as a

means of creating a sale and thereby a loyal customer. The report must also demonstrate how marketing theory covered during the course has been incorporated into your Report (citing appropriate references). It is likely that your team will need to conduct both primary (i.e. interviews/observation/surveys) and secondary research to support your case study. Secondary research only (i.e. industry studies, abs data, etc) case studies will score relatively low marks. This means that your group will need to thoroughly investigate the organization both from a theoretical and a practical perspective.

8.6 Class Participation (5%)

Participation

Students are expected to engage with others in their class in order to generate meaningful class discussion. Students may utilize question and answer time, class activities, skits/role plays, games or the like, which are designed to educate and involve the audience in the case material.

Reflective Journal

Our Blackboard facility provides each student with a personal journal facility. Reflective journals provide students with early feedback on their whether or not they have fully understood the basic principles enunciated in lectures.

Only the individual student and the lecturer can read the journal entries. This provides students with the opportunity to reflect in writing upon the lessons learned each week. Experience has shown this to be a valuable learning tool.

Importantly, it also provides students who are shy of public discussion on issues they find opaque or confusing to air their concerns with the lecturer in private.

A Class Participation Mark up to 5% will be allocated based on the following criteria.

- Regular completion of journal after each lecture
- Evidence of personal insight from the cases, major assignment and class participation

8.7 Grades

Please refer to relevant Bachelor Degree rule in the Handbook of Undergraduate Studies. In addition please consider the following:

Academic Senate has a set of guidelines on the distribution of grades across the range from fail to high distinction. Your final result will include one of these grades plus a standardised numerical grade (SNG).

On occasion your raw mark for a unit (i.e., the total of your marks for each assessment item) may not be the same as the SNG which you receive. Under the Senate guidelines, results may be scaled to ensure that there is a degree of comparability across the university, so that units with the same past performances of their students should achieve similar results. It is important that you realise that the policy does not require that a minimum number of students are to be failed in any unit. In fact it does something like the opposite, in requiring examiners to explain their actions if more than 20% of students fail in a unit.

The process of scaling does not change the order of marks among students. A student who receives a higher raw mark than another will also receive a higher final scaled mark.

For an explanation of the policy see

<http://www.mq.edu.au/senate/MQUonly/Issues/Guidelines2003.doc> or

<http://www.mq.edu.au/senate/MQUonly/Issues/detailedguidelines.doc>

9 Student responsibilities and conduct

9.1 Workload

It is expected that you will spend at least **3 hours per week per credit point over and above the face to face teaching** studying this course. This time should be made up of reading, research, working on exercises and problems, and attending classes. In periods where you need to complete assignments or prepare for examinations, the workload may be greater. Over-commitment has been a cause of failure for many students. You should take the required workload into account when planning how to balance study with employment and other activities.

Marketing is a very broad field. Often, we will be covering in one or two class sessions a topic that many people spend their lives trying to understand and master. Clearly, we will not have time to cover the nitty-gritty details of every topic. As such, *it is critical that students do the readings for each day before you come to class*. In class, we will go beyond the readings to highlight critical aspects of each topic. If you have not done the readings or case preparation for the day, you will not get much out of the lecture and discussion and your participation will suffer.

9.2 General Class Behaviour, Honour Code and Marketing Group Interaction

All aspects of MKTG807 are conducted in accord with the following honour code:

1. You are expected to conduct yourself with consideration and respect for the needs of your fellow students and teaching staff. Conduct which unduly disrupts or interferes

with a class, such as ringing or talking on mobile phones, is not acceptable and students may be asked to leave the class.

2. As a courtesy to other class members, please come on time and please do not leave before the end of class. University regulations indicate that if students attend less than eighty per cent (80%) of scheduled classes they may be refused final assessment.
3. Past experience indicates that it is difficult to do well in this course if you do not attend class on a regular basis. To provide an accurate measure of class attendance a class roll will be taken.
4. As would be expected, all work must be performed independently by each student or, where appropriate, by the members of the student's Project Group working together. The sharing of information between Project Groups is not acceptable.
5. The use of materials from other courses or from previous sessions– lecture notes, case analyses, problem solutions, or whatever – is also not acceptable.

10 Academic Honesty (and Submission to Turnitin.com)

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at

http://www.mq.edu.au/policy/docs/academic_honesty/policy.html

The University defines plagiarism in its rules: "Plagiarism involves using the work of another person and presenting it as one's own." These can be found in the Handbook of Undergraduate Studies or on the web at: <http://www.student.mq.edu.au/plagiarism/>

Penalties may include a deduction of marks, failure in the unit, and/or referral to the University Discipline Committee.

11 Referencing Guide

12 Special consideration

The University is committed to equity and fairness in all aspects of its learning and teaching. In stating this commitment, the University recognises that there may be circumstances where a student is prevented by unavoidable disruption from performing in accordance with their ability. A special consideration policy exists to support students who experience serious and unavoidable disruption such that they do not reach their usual demonstrated performance level. The policy is available at:

MKTG807 B-2-B MARKETING GROUP PROJECT 2011 CONFIDENTIAL STUDENT EVALUATION OF MEMBER PARTICIPATION

In order to encourage equal participation on the part of all group members, each group will complete and turn in an evaluation of the group member. This evaluation will indicate the percentage of contribution of group members to the group's over-all performance in the group assignment. Use the following format:

Lecturer _____

Project Group No _____ Date: _____

Group Project Name: _____ Mark _____

Each student should give each group member (including themselves) a participation mark out of 100%. Individual marks are calculated by multiplying the paper grade by the percentage awarded by peers. For example, if Joe Black was awarded 90% for his contribution to the assignment and his group received 36 out of 40 points for the project, Joe's individual mark would be 32.4%. Another student, awarded 100%, would receive 36 points.

Students can give each of the group members 100%. If this is done, each student receives the mark that was awarded to the total project (in the above example, 36 points). No student should receive 0% unless the student really did nothing to contribute to the completion of the project (for example, did not go to meetings, did not complete assigned tasks, and did not contribute to the conceptualisation of the project).

Student Name	% Participation	Individual Mark	Signature

In completing this form you should take into account:

1. Willingness of the individual to carry out jobs assigned
2. Ability of the individual to meet deadlines
3. Co-operation with other team members
4. Quality of the individual's work
