

Actuarial Studies Seminar  
Macquarie University  
5 May 2010

David Koob  
Allianz Australia

### **Potential Areas for Research in General Insurance**

An increasing number of catastrophic events, irrational competition, the global financial crisis... These are just some of the major issues facing insurance companies today.

David Koob will talk about the major issues facing the insurance industry and actuarial profession in Australia today.

David works for Allianz Australia and promotes research in general insurance for the Institute of Actuaries of Australia.
