UNIT OUTLINE

SEMESTER 1, 2006

Lecture: Monday, 6:00pm – 8:00pm, E7B T5

Unit Convenor: Julian de Meyrick

Prerequisites: BBA203; BBA213

Students in this unit should read the Unit Outline carefully at the beginning of the semester. It contains important information about the unit. If anything in it is unclear, please consult the Unit Convenor.
ABOUT THIS UNIT

BUS201 is a 3 credit point unit.

This unit introduces students to the implications of differences in social processes and organisational structures, management practices and communications for international business decisions. It will also consider the implications of the sociological, economic, technological and political environments on decision-making practices. Included in the unit will be a review of differences in culture, ethics, work and family/lifestyle issues, work motivation and loyalty to the organisation.

OBJECTIVES

This unit will provide the theoretical foundation for the BIB Degree. Subsequent 300-level BUS course units will allow further in-depth study of many of the topics introduced here. Group work will allow students to interact positively, and presentations will further the development of essential business communication skills.

TEACHING STAFF

Lecturer: Steve Erichsen E-mail: erichsen@optusnet.com.au

Consultation arrangements will be advised in lectures.

Unit Co-ordinator: Julian de Meyrick Tel: 9850 8463 Building E4A, Room 628; E-mail: Julian.deMeyrick@efs.mq.edu.au

REQUIRED TEXT

Students will be expected to attend lectures fully prepared to discuss assigned readings as per the course outline. Students are also encouraged to access the relevant media (financial press, BRW, The Economist) in order to keep abreast of current issues in the international business marketplace

UNIT WEB PAGE

There is no web page for this unit.
LEARNING OUTCOMES

The learning outcomes of this unit are:

- an understanding of the development of the global marketplace and its impact on organisations and countries
- an understanding of major influences and controls on organisations that participate in international markets
- an understanding of the functional aspects of international business
- an understanding of current and future trends affecting the growth of globalisation and international business

In addition to the discipline-based learning objectives, all academic programs at Macquarie seek to develop students’ generic skills in a range of areas. One of the aims of this unit is that students develop skills in the following:

- working in teams
- creative thinking skills
- communication skills

TEACHING AND LEARNING STRATEGY

This unit is taught using lectures and “applications lectures” (whole-of-class tutorials). Students are expected to read in advance of lectures, and actively participate in applications lectures.

ATTENDANCE

It is an expectation that students will attend at least 80% of classes.

LECTURE PROGRAM

Lecture Time: Monday 6pm - 8pm in E7B T5

Week 1:
Explanation of Outline & Expectations
Introduction: History of International Trade & Investment

Week 2:
Globalisation (Ch 1)

Week 3:
Comparative Business Systems (Ch 2, 8)

Week 4:
International Trade (Ch 4, 5)
Week 5:
Foreign Direct Investment (Ch 6, 7)

Week 6:
The Strategy of International Business (Ch 12, 14)

Week 7:
The Global Monetary System (Ch 9 – 11)

Week 8:
Differences in Culture (Ch 3)

Week 9:
The Organisation of International Business (Ch 13)

Week 10:
Exporting, Importing and Countertrade (Ch 15)
Presentations

Week 11:
Global Human Resource Management (Ch 18)
Presentations

Week 12:
Global Manufacturing and Marketing (Ch 16, 17)
Presentations

Week 13:
Global Accounting and Financial Management (Ch 19, 20)
Presentations
Review

ASSESSMENT

Group Assignment 20%
In Class Assignments 5%
Individual Assignment 25%
Final Examination 50%

Note: Students must Pass the Final Exam (>49%) to pass the course
RELATIONSHIP BETWEEN ASSESSMENT AND LEARNING OUTCOMES

Knowledge and understanding of the subject matter is assessed using a mixture of presentation, group discussion, written submission, and multiple choice and short answer exam questions. The ability to work collaboratively and creatively to build a presentation of a group view is seen as a valid demonstration of commitment to mastering the subject matter. There are four assessment components, a group presentation, regular in class assignments, an individual assignment and a final exam. Together the assessment tasks cover the unit. **You must pass the final exam to pass the unit.**

Group Project - 20%
This is a group exercise – all members of the group are expected to contribute actively and substantially. Some members of the group may provide more input in the research area whereas others may do more of the actual written presentation. The group will be required to acknowledge that all group members have given quality time to the project. Your groups will be organised in class. The topics will be distributed in class in Week 3 – your responses will be required by end of class in week 9. Late submission of the Group Project will incur a penalty of 10% of the value of the assignment for every day that it is late.

In Class Assignments - 5%
Two in class assignments will be required in this unit. A single page response is expected.

Individual Assignment - 25%
Each student will be expected to submit an individual assignment of 2,000 words on a topic to be provided. The topic will be available in Week 8; responses are required by end of class in Week 11. Late submission of the assignment will incur a penalty of 10% of the value of the assignment for every day that it is late.

Final Examination - 50%
The final exam will be held in the formal examination period. The examination will be “closed book”. It will contain a multiple choice section as well as a written section addressing the whole of the unit. Further details will be given later in the semester regarding format and content. You must pass the final exam to pass the unit.

The University examination period in First Half Year 2006 is from 15 June to 29 June.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations. [http://www.timetables.mq.edu.au/exam](http://www.timetables.mq.edu.au/exam)

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. Information about unavoidable disruption and the special consideration process is available at [http://www.reg.mq.edu.au/Forms/APSCon.pdf](http://www.reg.mq.edu.au/Forms/APSCon.pdf).

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period.
You are advised that it is Macquarie University policy not to set early examinations for individuals or groups of students. All students are expected to ensure that they are available until the end of the teaching semester, that is the final day of the official examination period.

**PLAGIARISM**

The University defines plagiarism in its rules: "Plagiarism involves using the work of another person and presenting it as one's own." Plagiarism is a serious breach of the University's rules and carries significant penalties. You must read the University's practices and procedures on plagiarism. These can be found in the *Handbook of Undergraduate Studies* or on the web at: http://www.student.mq.edu.au/plagiarism/

The policies and procedures explain what plagiarism is, how to avoid it, the procedures that will be taken in cases of suspected plagiarism, and the penalties if you are found guilty. Penalties may include a deduction of marks, failure in the unit, and/or referral to the University Discipline Committee.

**UNIVERSITY POLICY ON GRADING**

Academic Senate has a set of guidelines on the distribution of grades across the range from fail to high distinction. Your final result will include one of these grades plus a standardised numerical grade (SNG).

On occasion your raw mark for a unit (i.e., the total of your marks for each assessment item) may not be the same as the SNG which you receive. Under the Senate guidelines, results may be scaled to ensure that there is a degree of comparability across the university, so that units with the same past performances of their students should achieve similar results.

It is important that you realise that the policy does not require that a minimum number of students are to be failed in any unit. In fact it does something like the opposite, in requiring examiners to explain their actions if more than 20% of students fail in a unit.

The process of scaling does not change the order of marks among students. A student who receives a higher raw mark than another will also receive a higher final scaled mark.

**STUDENT SUPPORT SERVICES**

Macquarie University provides a range of Academic Student Support Services. Details of these services can be accessed at http://www.student.mq.edu.au.
